The 2012/13 Audit Report was not available when the Annual Financial Statements were approved and will be attached hereto as Annexure "A" when received after the completion of the statutory audit.

**GA-SEGONYANA MUNICIPALITY**  
**ANNUAL FINANCIAL STATEMENTS**  
**for the year ended 30 June 2014**

**REPORT OF THE CHIEF FINANCIAL OFFICER**

**1. INTRODUCTION**

It gives me great pleasure to present the Annual Financial Statements of Ga-Segonyana Municipality at 30 June 2014.

These Annual Financial Statements have been prepared in accordance with Generally Recognised Accounting Practice (GRAP), issued by the Accounting Standards Board (ASB) in accordance with Section 122(3) of the Municipal Finance Management Act, (Act No 56 of 2003). The standards and pronouncements that form the GRAP Reporting Framework for the 2013/14 financial period is set out in Directive 5 issued by the ASB on 11 March 2009.

The Statement of Financial Position at 30 June 2014 indicates an increase in Net Assets, an increase in Non-current Liabilities and a decrease in Current Liabilities.

The increase in Net Assets is ascribed primarily to the increase in Accumulated Surplus as a result of the surplus generated on the operating account. The increase in Non-current Liabilities is primarily as a result of the increases in Retirement Benefit Liabilities and Long-service Benefits. The decrease in Current Liabilities is primarily as a result of the decrease in Payables as well as Unspent Conditional Grants.

**2. KEY FINANCIAL INDICATORS**

The following indicators are self-explanatory. The percentages of expenditure categories are well within acceptable norms and indicate good governance of the funds of the municipality.

**2.1 Financial Statement Ratios:**

INDICATOR	2014	2013
Surplus / (Deficit) before Appropriations	45 998 491	15 509 807
Surplus / (Deficit) at the end of the Year	908 491 624	862 994 634
<b>Expenditure Categories as a percentage of Total Expenses:</b>		
Employee Related Costs	25.20%	21.83%
Remuneration of Councillors	2.28%	2.42%
Collection Costs	0.00%	0.00%
Depreciation and Amortisation	14.25%	14.45%
Impairment Losses	1.42%	4.03%
Repairs and Maintenance	9.56%	7.97%
Interest Paid	0.95%	1.76%
Bulk Purchases	18.51%	20.33%
Contracted Services	0.00%	0.00%
Grants and Subsidies Paid	0.09%	0.00%
General Expenses	27.74%	26.36%
<b>Current Ratio:</b>		
Trade Creditors Days	19	30
Debtors from Exchange Transactions Days	49	42

## 2.2 Performance Indicators:

INDICATOR	2014	2013
<b>Financial Position</b>		
Debtors Management:		
Outstanding Debtors to Revenue	9.93%	9.41%
Outstanding Service Debtors to Revenue	19.82%	16.00%
Liquidity Management:		
Liquidity Ratio	0.37	0.36
Liability Management:		
Capital Cost as percentage of Own Revenue	3.63%	6.18%
Borrowed Funding as percentage of Own Capital Expenditure	0.00%	0.00%
Borrowing as percentage of Total Capital Assets	2.75%	3.07%
Safety of Capital:		
Gearing	2.85%	3.21%
Financial Viability:		
Debt Coverage	37.47	26.03
Cost Coverage	0.06	0.09
<b>Financial Performance</b>		
Expenditure Management:		
Creditors to Cash and Investments	125.94%	86.60%
Capital Expenditure on Infrastructure to Total Capital Expenditure	12537.66%	-1314.47%

A detailed ratio analysis, together with explanations, is included in Appendix "H".

## 3. OPERATING RESULTS

Details of the operating results per segmental classification of expenditure are included in Appendix "D", whilst operational results are included in Appendices "E (1), E (2) and E (3)".

The services offered by Mogalakwena Municipality can generally be classified as Rates and General, Economic and Trading Services and are discussed in more detail below.

The overall operating results for the year ended 30 June 2014 are as follows:

DETAILS	Actual 2013/14 R	Actual 2012/13 R	Percentage Variance %	Budgeted 2013/14 R	Variance actual/ budgeted %
<b>Income:</b>					
Opening surplus / (deficit)	941 459 784	925 999 224	1.67	-	100.00
Operating income for the year	342 007 636	280 430 679	21.96	294 315 147	16.20
Appropriations for the year	-	-	-	-	-
	1 283 467 420	1 206 429 904	6.39	294 315 147	336.09
<b>Expenditure:</b>					
Operating expenditure for the year	296 009 145	264 920 873	11.73	305 258 072	(3.03)
Sundry transfers	-	49 247	(100.00)	-	-
Closing surplus / (deficit)	987 458 275	941 459 784	4.89	(10 942 925)	(9 123.71)
	1 283 467 420	1 206 429 904	6.39	294 315 147	336.09
	(0)				

### 3.1 Rates and General Services:

Rates and General Services are all types of services rendered by the municipality, excluding those listed below. The main income sources are Assessment Rates and Sundry Fees levied.

DETAILS	Actual 2013/14 R	Actual 2012/13 R	Percentage Variance %	Budgeted 2013/14 R	Variance actual/ budgeted %
Income	79 462 678	78 653 650	1.03	107 731 448	(26.24)
Expenditure	149 275 338	117 709 112	26.82	156 073 755	(4.36)
Surplus / (Deficit)	(69 812 660)	(39 055 461)	78.75	(48 342 307)	44.41
Surplus / (Deficit) as % of total income	(87.86)%	(49.65)%		(44.87)%	

### 3.2 Housing Services:

Housing Services are services rendered by the municipality to supply housing to the community and includes the rental of units owned by the municipality to public and staff. The main income source is the levying of Housing Rentals.

DETAILS	Actual 2013/14 R	Actual 2012/13 R	Percentage Variance %	Budgeted 2013/14 R	Variance actual/ budgeted %
Income	-	-	-	-	-
Expenditure	3 708	3 274	13.24	3 231	14.77
Surplus / (Deficit)	(3 708)	(3 274)	13.24	(3 231)	14.77
Surplus / (Deficit) as % of total income	(100.00)%	(100.00)%		(100.00)%	

### 3.3 Waste Management Services:

Waste Management Services are services rendered by the municipality for the collection, disposal and purifying of waste (refuse and sewerage). Income is mainly generated from the levying of fees and tariffs determined by the council.

DETAILS	Actual 2013/14 R	Actual 2012/13 R	Percentage Variance %	Budgeted 2013/14 R	Variance actual/ budgeted %
Income	64 541 666	37 265 829	73.19	37 500 969	72.11
Expenditure	27 785 851	25 693 494	8.14	21 130 133	31.50
Surplus / (Deficit)	36 755 815	11 572 335	217.62	16 370 836	124.52
Surplus / (Deficit) as % of total income	56.95%	31.05%		43.65%	

### 3.4 Electricity Services:

Electricity is bought in bulk from Eskom and distributed to the consumers by the municipality. The cost of bulk purchases to the municipality was R54 784 014 (2013: R53 847 495). Tariffs levied for electricity are subject to administered adjustments.

DETAILS	Actual 2013/14 R	Actual 2012/13 R	Percentage Variance %	Budgeted 2013/14 R	Variance actual/ budgeted %
Income	105 831 260	96 020 084	10.22	104 427 615	1.34
Expenditure	73 344 551	80 816 485	(9.25)	79 453 072	(7.69)
Surplus / (Deficit)	32 486 710	15 203 599	113.68	24 974 543	30.08
Surplus / (Deficit) as % of total income	30.70%	15.83%		23.92%	

### 3.5 Water Services:

DETAILS	Actual 2013/14 R	Actual 2012/13 R	Percentage Variance %	Budgeted 2013/14 R	Variance actual/ budgeted %
Income	92 172 032	68 491 116	34.58	44 655 115	106.41
Expenditure	45 599 697	40 698 508	12.04	48 597 881	(6.17)
Surplus / (Deficit)	46 572 334	27 792 608	67.57	(3 942 766)	(1 281.21)
Surplus / (Deficit) as % of total income	50.53%	40.58%		(8.83)%	

### 4. FINANCING OF CAPITAL EXPENDITURE

The expenditure on Assets during the year amounted to R82 894 325 (2012/13: R57 927 468). Full details of Assets are disclosed in Notes 9, 10, 11, 12 and Appendices "B, C and E (4)" to the Annual Financial Statements.

The capital expenditure of R82 894 325 was financed as follows:

DETAILS	Actual 2013/14 R	Actual 2012/13 R	Percentage Variance %	Budgeted 2013/14 R	Variance actual/ budgeted %
Capital Replacement Reserve	-	-	-	-	-
Grants and Subsidies	-	-	-	-	-
Public Contributions	-	-	-	-	-
Own Funds (Accumulated Surplus)	603 320	(3 995 234)	(115.10)	-	100.00
	603 320	(3 995 234)	(115.10)	-	100.00

### 5. RECONCILIATION OF BUDGET TO ACTUAL

#### 5.1 Operating Budget:

DETAILS	2014	2013
<i>Variance per Category:</i>		
Budgeted surplus before appropriations	(10 942 925)	(2 641 466)

Other	-	-	-	-	-
	603 320	(3 995 234)	4 598 554	-	603 320

Details of the results per segmental classification of capital expenditure are included in Appendix "C" and in Appendix "E (4)".

## 6. ACCUMULATED SURPLUS

The balance of the Accumulated Surplus as at 30 June 2014 amounted to R908 491 624 (30 June 2013: R862 994 634) and is made up as follows:

Capitalisation Reserve	(78 475 343)
------------------------	--------------

Accumulated Surplus	986 966 967
	<u>908 491 624</u>

The Capitalisation Reserve is utilised to offset the cost of depreciation of assets funded from Internal Advances (not applicable anymore) over the lifespan of such assets.

The municipality, in conjunction with its own capital requirements and external funds (external loans and grants) is able to finance its annual infrastructure capital programme.

Refer to Note 22 and the Statement of Change in Net Assets for more detail.

## 7. LONG-TERM LIABILITIES

The outstanding amount of Long-term Liabilities as at 30 June 2014 was R25 906 636 (30 June 2013: R27 679 212).

Loans to the amount of R0 (2012/13: R0) was taken up during the financial year to enable the municipality to finance part of its capital requirements for the year.

Refer to Note 19 and Appendix "A" for more detail.

## 8. EMPLOYEE BENEFIT LIABILITIES

Employee Benefit Liabilities amounted R21 485 128 as at 30 June 2014 (30 June 2013: R19 416 221) and is made up as follows:

Post-retirement Health Care Benefits Liability	18 695 945
Long Service Awards Liability	<u>2 789 183</u>
	<u><u>21 485 128</u></u>

The Post-retirement Health Care Benefits Liability is in respect of continued Health Care Benefits for employees of the municipality after retirement being members of schemes providing for such benefits. This liability is unfunded.

The Long-term Service Liability is an estimate of the long-service based on historical staff turnover. No other long-term service benefits are provided to employees. This liability is unfunded.

Refer to Note 20 for more detail.

## 9. NON-CURRENT PROVISIONS

Non-current Provisions amounted R10 244 897 as at 30 June 2014 (30 June 2013: R9 612 415) and is made up as follows:

Provision for Rehabilitation of Land-fill Sites	10 244 897
	<u><u>10 244 897</u></u>

These provisions are made in order to enable the municipality to be in a position to fulfill its known legal obligations when they become due and payable.

Refer to Note 21 for more detail.

## 10. CURRENT LIABILITIES

Current Liabilities amounted R40 463 275 as at 30 June 2014 (30 June 2013: R55 608 968) and is made up as follows:

Consumer Deposits	Note 14	2 655 066
Provisions	Note 15	1 017 533
Payables from Exchange Transactions	Note 16	18 833 812
Payables from Non-exchange Transactions	Note 17	8 955 056
Unspent Conditional Grants and Receipts	Note 18	6 811 257
Current Portion of Long-term Liabilities	Note 19	<u>2 190 551</u>
		<u><u>40 463 275</u></u>

Current Liabilities are those liabilities of the municipality due and payable in the short-term (less than 12 months). There is no known reason as to why the municipality will not be able to meet its obligations.

Refer to the indicated Notes for more detail.

## **11. PROPERTY, PLANT AND EQUIPMENT**

The net value of Property, Plant and Equipment was R937 496 943 as at 30 June 2014 (30 June 2013: R897 774 028).

Refer to Note 9 and Appendices "B, C and E (4)" for more detail.

## **12. INTANGIBLE ASSETS**

The net value of Intangible Assets were R657 844 as at 30 June 2014 (30 June 2013: R865 236).

Intangible Assets are assets which cannot physically be identified and verified and are in respect of computer software obtained by the municipality in order to be able to fulfil its duties as far as service delivery is concerned.

Refer to Note 10 and Appendix "B" for more detail.

## **13. INVESTMENT PROPERTY**

The net value of Investment Properties were R661 000 as at 30 June 2014 (30 June 2013: R661 000).

Investment Property is property held to earn rentals or for capital appreciation or both, rather than for use in the production or supply of goods or services or for administrative purposes; or sale in the ordinary course of operations.

Refer to Note 11 and Appendix "B" for more detail.

## **14. HERITAGE ASSETS**

The net value of Heritage Assets were R1 686 000 as at 30 June 2014 (30 June 2013: R1 686 000).

Heritage Assets are assets that have a cultural, environmental, historical, natural, scientific, technological or artistic significance and are held indefinitely for the benefit of present and future generations.

Refer to Note 12 and Appendix "B" for more detail.

## **15. LONG-TERM RECEIVABLES**

Long-term Receivables of R388 197 at 30 June 2014 (30 June 2013: R432 039) is made up as follows:

Debtors Capitalised Loans	451 687
Housing Loans	204 788
	656 475
Less: Short-term portion included in Current Assets	268 278
	388 197

The decrease in the amount for Long-term Receivables is due to the increased amount in the short-term portion due to agreements expiring in the year 2014/15.

Refer to Note 13 for more detail.

## **16. CURRENT ASSETS**

Current Assets amounted R65 701 575 as at 30 June 2014 (30 June 2013: R73 893 147) and is made up as follows:

Inventories	Note 2	21 560 052
Receivables from Exchange Transactions	Note 3	15 858 474
Receivables from Non-exchange Transactions	Note 4	7 661 223
VAT Receivable	Note 5	5 396 525
Cash and Cash Equivalents	Note 6	14 954 566
Current Portion of Long-term Debtors	Note 13	
		<u>270 734</u>
		<u>65 701 575</u>

The increase in the amount for Current Assets is mainly due to the increased amount for Receivables from Non-exchange Transactions in respect of expenditure incurred to be claimed from DWA.

Refer to the indicated Notes for more detail.

#### **17. INTER-GOVERNMENTAL GRANTS**

The municipality is dependent on financial aid from other government spheres to finance its annual capital programme. Operating grants are utilised to finance indigent assistance and provision of free basic services.

Refer to Notes 18 and 26, and Appendix "F" for more detail.

#### **18. EVENTS AFTER THE REPORTING DATE**

Full details of all known events, if any, after the reporting date are disclosed in Note 55.

#### **19. EXPRESSION OF APPRECIATION**

We are grateful to the Mayor, members of the Executive Committee, Councillors, the Municipal Manager and Heads of Departments for the support extended during the financial year. A special word of thanks to all staff in the Finance Department, for without their assistance these Annual Financial Statements would not have been possible.

## GA-SEGONYANA MUNICIPALITY

### ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2014

#### 1. BASIS OF PRESENTATION

The Annual Financial Statements have been prepared on an Accrual Basis of accounting and are in accordance with the historical cost convention, except where indicated otherwise.

The Annual Financial Statements have been prepared in accordance with the effective Standards of Generally Recognised Accounting Practices (GRAP), as approved by the Minister of Finance, including any interpretations, guidelines and directives issued by the Accounting Standards Board and the Municipal Finance Management Act, 2003 (Act No. 56 of 2003).

##### ***1.1 Changes in Accounting Policy and Comparability***

Accounting Policies have been consistently applied, except where otherwise indicated below.

For the years ended 30 June 2013 and 30 June 2014 the municipality has adopted the accounting framework as set out in paragraph 1 above. The details of any resulting changes in Accounting Policy and comparative restatements are set out below and in the relevant Notes to the Annual Financial Statements.

The municipality changes an Accounting Policy only if the change:

- (a) Is required by a Standard of GRAP; or
- (b) Results in the Annual Financial Statements providing reliable and more relevant information about the effects of transactions, other events or conditions on the municipality's financial position, financial performance or cash flow.

##### ***1.2 Critical Judgements, Estimations and Assumptions***

In the application of the municipality's Accounting Policies, which are described below, management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these ~~estimates~~.

These estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

The following are the critical judgements and estimations that management have made in the process of applying the municipality's Accounting Policies and that have the most significant effect on the amounts recognised in Annual Financial

###### **1.2.1 Revenue Recognition**

Accounting Policy 12.2 on Revenue from Exchange Transactions and Accounting Policy 12.3 on Revenue from Non-exchange Transactions describes the conditions under which revenue will be recorded by the management of the municipality.

In making their judgement, the management considered the detailed criteria for the recognition of revenue as set out in GRAP 9 (*Revenue from Exchange Transactions*) and GRAP 23 (*Revenue from Non-exchange Transactions*). As far as Revenue from Non-exchange Transactions is concerned (see Basis of Preparation above), and, in particular, whether the municipality, when goods are sold, had transferred to the buyer the significant risks and rewards of ownership of the goods and when services are rendered, whether the service has been rendered. Also of importance is the estimation process involved in initially measuring revenue at the fair value thereof. Management of the municipality is satisfied that recognition of the revenue in the current year is ~~appropriate~~.

###### **1.2.2 Financial Assets and Liabilities**

The classification of Financial Assets and Liabilities, into categories, is based on judgement by management. Accounting Policy 8.1 on Financial Assets Classification and Accounting Policy 8.2 on Financial Liabilities Classification describe the factors and criteria considered by the management of the municipality in the classification of Financial Assets and Liabilities.

In making the above-mentioned judgement, management considered the definition and recognition criteria for the classification of Financial Instruments as set out in GRAP 104 (*Financial Instruments*).

## GA-SEGONYANA MUNICIPALITY

### ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2014

#### 1.2.3 Impairment of Financial Assets

Accounting Policy 8.4 on Impairment of Financial Assets describes the process followed to determine the value at which Financial Assets should be impaired. In making the estimation of the impairment, the management of the municipality considered the detailed criteria of impairment of Financial Assets as set out in GRAP 104 (Financial Instruments) and used its judgement to select a variety of methods and make assumptions that are mainly based on market conditions existing at the end of the reporting period. The management of the municipality is satisfied that impairment of Financial Assets recorded during the year is appropriate.

- Impairment of Trade Receivables:

The calculation in respect of the impairment of Debtors is based on an assessment of the extent to which Debtors have defaulted on payments already due, and an assessment of their ability to make payments based on their creditworthiness. This is performed per service-identifiable categories across all classes of debtors.

The total increase in estimation of the impairment of Receivables from Exchange Transactions, Receivables from Non-exchange Transactions and that of Long-term Receivables are disclosed in Notes 3, 4 and 13 to the Annual Financial Statements.

#### 1.2.4 Useful lives of Property, Plant and Equipment, Intangible Assets and Investment Property

As described in Accounting Policies 3.3, 4.2 and 5.2, the municipality depreciates its Property, Plant & Equipment and Investment Property, and amortises its Intangible Assets, over the estimated useful lives of the assets, taking into account the residual values of the assets at the end of their useful lives, which is determined when the assets are available for use.

The useful lives of assets are based on management's estimation. Management considered the impact of technology, availability of capital funding, service requirements and required return on assets in order to determine the optimum useful life expectation, where appropriate.

The estimation of residual values of assets is based on management's judgement as to whether the assets will be sold or used to the end of their useful lives, and in what condition they will be at that time.

#### 1.2.5 Impairment: Write-down of Property, Plant & Equipment, Intangible Assets, Investment Property, Heritage Assets and Inventories

Accounting Policy 7 on Impairment of Assets, Accounting Policy 4.2 on Intangible Assets – Subsequent Measurement, Amortisation and Impairment and Accounting Policy 10. on Inventory – Subsequent Measurement describe the conditions under which non-financial assets are tested for potential impairment losses by the management of the municipality. Significant estimates and judgements are made relating to impairment testing of Property, Plant and Equipment, impairment testing of Intangible Assets and write-down of Inventories to the lowest of Cost and Net Realisable Value.

In making the above-mentioned estimates and judgement, management considered the subsequent measurement criteria and indicators of potential impairment losses as set out in GRAP 21 (Impairment of Non-cash Generating Assets) and GRAP 26 (Impairment of Cash Generating Assets). In particular, the calculation of the recoverable service amount for PPE and Intangible Assets and the Net Realisable Value for Inventories involves significant judgment by management.

Estimated impairments during the year to Property, Plant and Equipment, Intangible Assets, Investment Property, Heritage Assets and Inventory are disclosed in Notes 2, 9, 10, 11 and 12 to the Annual Financial Statements, if applicable.

#### 1.2.6 Water Inventory

The estimation of the Water Inventory in reservoirs is based on the measurement of water via electronic level sensors, which determines the depth of water in the reservoirs, which is then converted into volumes based on the total capacity of the reservoir. Furthermore, the length and width of all pipes are also taken into account in determining the volume of water on hand at year-end. Refer to Accounting Policy 10.2..

#### 1.2.7 Defined Benefit Plan Liabilities

As described in Accounting Policy 14.2, Employee Benefits – Post-employment Benefits, the municipality obtains actuarial valuations of its Defined Benefit Plan Liabilities. The defined benefit obligations of the municipality that were identified are Post-retirement Health Benefit Obligations and Long-service Awards. The estimated liabilities are recorded in accordance with the requirements of GRAP 25. Details of the liabilities and the key assumptions made by the actuaries in estimating the liabilities are provided in the relevant Notes to the Annual Financial Statements.

## GA-SEGONYANA MUNICIPALITY

### ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2014

#### 1.2.8 Provisions and Contingent Liabilities

Management judgement is required when recognising and measuring Provisions and when measuring Contingent Liabilities. Provisions are discounted where the effect of discounting is material using actuarial valuations.

#### 1.2.9 Budget Information

Deviations between budget and actual amounts are regarded as material differences when a 10% deviation exists. All material differences are explained in the relevant Notes to the Annual Financial Statements.

#### 1.3 Presentation Currency

The Annual Financial Statements are presented in South African Rand, rounded off to the nearest Rand which is the municipality's functional currency.

#### 1.4 Going Concern Assumption

The Annual Financial Statements have been prepared on a *Going Concern Basis*.

#### 1.5 Offsetting

Assets, Liabilities, Revenues and Expenses have not been offset except when offsetting is required or permitted by a Standard of GRAP.

#### 1.6 Standards, Amendments to Standards and Interpretations issued but not yet Effective

The following GRAP Standards have been issued but are not yet effective and have not been early adopted by the municipality:

- GRAP 18 Segment Reporting - issued March 2005
- GRAP 20 Related Party Disclosures (Revised)
- GRAP 32 Service Concession Arrangement Grantor
- GRAP 105 Transfers between Entities under common control - issued November 2010
- GRAP 106 Transfers between Entities not under common control - issued November 2010
- GRAP 107 Mergers - issued November 2010
- GRAP 108 Statutory Receivables

The Minister of Finance announced that the application of GRAP 25 will be effective for the period starting after 1 April 2013. All other standards as listed above will only be effective when a date is announced by the Minister of Finance.

The ASB Directive 5, paragraph 29, sets out the principles for the application of the GRAP 3 guidelines in the determination of the GRAP Reporting Framework hierarchy as set out in the standard of GRAP 3 on *Accounting Policies, Changes in Accounting Estimates and Errors*.

Where a standard of GRAP is approved as effective, it replaces the equivalent statement of International Public Sector Accounting Standards Board, International Financial Reporting Standards or Generally Accepted Accounting Principles. Where a standard of GRAP has been issued but is not yet in effect, the municipality may select to apply the principles established in that standard in developing an appropriate Accounting Policy dealing with a particular section or event before applying paragraph 12 of the Standard of GRAP on Accounting Policies, Changes in Accounting Estimates and Errors.

The municipality applied the principles established in the following Standards of GRAP that have been issued but are not yet effective, in developing appropriate Accounting Policies dealing with the following transactions, but have not early adopted these Standards:

- GRAP 20 Related Party Disclosures (Revised)

Management has considered all of the above-mentioned GRAP Standards issued but not yet effective and anticipates that the adoption of these standards will not have a significant impact on the financial position, financial performance or cash flows of the municipality.

## GA-SEGONYANA MUNICIPALITY

### ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2014

#### 2. NET ASSETS

Included in the Net Assets of the municipality are the following Reserves that are maintained in terms of specific requirements:

##### **2.1 Accumulated Surplus**

Included in the Accumulated Surplus of the municipality are the following Reserves that are maintained in terms of specific requirements:

###### **2.1.1 Capital Replacement Reserve (CRR)**

In order to finance the provision of Infrastructure and other items of Property, Plant and Equipment from internal sources, amounts are transferred from the Accumulated Surplus/(Deficit) to the CRR in terms of delegated powers.

The following provisions are set for the creation and utilisation of the CRR:

- The cash funds that back up the CRR are invested until utilised. The cash may only be invested in accordance with the Investment Policy of the municipality.
- The CRR may only be utilised for the purpose of purchasing items of Property, Plant and Equipment and may not be used for the maintenance of these items.
- Whenever an asset is purchased out of the CRR, an amount equal to the cost price of the asset is transferred from the CRR and the Accumulated Surplus/(Deficit) is credited by a corresponding amount.
- If a profit is made on the sale of assets other than land, the profit on these assets is reflected in the Statement of Financial Performance and is then transferred, via the Statement of Changes in Net Assets, to the CRR, provided that it is cash backed. Profit on the sale of land is not transferred to the CRR as it is regarded as revenue.

###### **2.1.2 Capitalisation Reserve**

On the implementation of GRAP, the balance on certain funds, created in terms of the various Provincial Ordinances applicable at the time, that had historically been utilised for the acquisition of items of Property, Plant and Equipment were transferred to a Capitalisation Reserve rather than the Accumulated Surplus/(Deficit) in terms of a directive (Circular No 18) issued by National Treasury. The purpose of this Reserve is to promote consumer equity by ensuring that the future depreciation expenses that will be incurred over the useful lives of these items of Property, Plant and Equipment are offset by transfers from this Reserve to the Accumulated Surplus/(Deficit).

The balance on the Capitalisation Reserve equals the carrying value of the items of Property, Plant and Equipment financed from the former legislated funds. When items of Property, Plant and Equipment are depreciated, a transfer is made from the Capitalisation Reserve to the Accumulated Surplus/(Deficit).

When an item of Property, Plant and Equipment is disposed, the balance in the Capitalisation Reserve relating to such item is transferred to the Accumulated Surplus/(Deficit).

###### **2.1.3 Donations and Public Contributions Reserve**

When items of Property, Plant and Equipment are financed from public contributions and donations, a transfer is made from the Accumulated Surplus/(Deficit) to the Donations and Public Contributions Reserve equal to the donations and public contributions recorded as revenue in the Statement of Financial Performance in accordance with a directive (Circular No 18) issued by National Treasury. When such items of Property, Plant and Equipment are depreciated, a transfer is made from the Donations and Public Contributions Reserve to the Accumulated Surplus/(Deficit). The purpose of this policy is to promote community equity and facilitate budgetary control by ensuring that sufficient funds are set aside to offset the future depreciation charges that will be incurred over the estimated useful life of the item of Property, Plant and Equipment financed from donations and public contributions.

When an item of Property, Plant and Equipment financed from donations and public contributions is disposed, the balance in the Donations and Public Contributions Reserve relating to such item is transferred to the Accumulated Surplus/(Deficit).

## GA-SEGONYANA MUNICIPALITY

### ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2014

#### 2.1.4 Government Grants Reserve

When items of Property, Plant and Equipment are financed from government grants, a transfer is made from the Accumulated Surplus/(Deficit) to the Government Grants Reserve equal to the government grants recorded as revenue in the Statement of Financial Performance in accordance with a directive (Circular No 18) issued by National Treasury. When such items of Property, Plant and Equipment are depreciated, a transfer is made from the Government Grants Reserve to the Accumulated Surplus/(Deficit). The purpose of this policy is to promote community equity and facilitate budgetary control by ensuring that sufficient funds are set aside to offset the future depreciation charges that will be incurred over the estimated useful life of the item of Property, Plant and Equipment financed from government grants.

When an item of Property, Plant and Equipment financed from government grants is disposed, the balance in the Government Grants Reserve relating to such item is transferred to the Accumulated Surplus/(Deficit).

## 3. PROPERTY, PLANT AND EQUIPMENT

### 3.1 Initial Recognition

Property, Plant and Equipment are tangible non-current assets (including infrastructure assets) that are held for use in the production or supply of goods or services, rental to others, or for administrative purposes, and are expected to be used during more than one year.

The cost of an item of Property, Plant and Equipment is recognised as an asset if, and only if, it is probable that future economic benefits or service potential associated with the item will flow to the municipality, and if the cost or fair value of the item can be measured reliably.

Property, Plant and Equipment are initially recognised at cost on its acquisition date or in the case of assets acquired by grants or donations, deemed cost, being the fair value of the asset on initial recognition. The cost of an item of Property, Plant and Equipment is the purchase price and other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by the municipality. Trade discounts and rebates are deducted in arriving at the cost. The cost also includes the necessary costs of dismantling and removing the asset and restoring the site on which it is located.

When significant components of an item of Property, Plant and Equipment have different useful lives, they are accounted for as separate items (major components) of Property, Plant and Equipment.

Where an asset is acquired by the municipality for no or nominal consideration (i.e. a non-exchange transaction), the cost is deemed to be equal to the fair value of that asset on the date acquired.

The cost of an item of Property, Plant and Equipment acquired in exchange for non-monetary assets or monetary assets, or a combination of monetary and non-monetary assets is measured at the fair value of the asset given up, unless the fair value of the asset received is more clearly evident. If the acquired item could not be measured at its fair value, its cost is measured at the carrying amount of the asset given up.

Major spare parts and servicing equipment qualify as Property, Plant and Equipment when the municipality expects to use them during more than one period. Similarly, if the major spare parts and servicing equipment can be used only in connection with an item of Property, Plant and Equipment, they are accounted for as Property, Plant and Equipment.

### 3.2 Subsequent Measurement

Subsequent expenditure relating to Property, Plant and Equipment is capitalised if it is probable that future economic benefits or potential service delivery associated with the subsequent expenditure will flow to the municipality and the cost or fair value of the subsequent expenditure can be reliably measured. Subsequent expenditure incurred on an asset is only capitalised when it increases the capacity or future economic benefits associated with the asset. Where the municipality replaces parts of an asset, it derecognises the part of the asset being replaced and capitalises the new component.

Subsequently all Property Plant and Equipment are measured at cost, less accumulated depreciation and accumulated impairment losses.

Compensation from third parties for items of Property, Plant and Equipment that were impaired, lost or given up is included in the Statement of Financial Performance when the compensation becomes receivable.

## GA-SEGONYANA MUNICIPALITY

### ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2014

#### 3.3 Depreciation

Depreciation on assets other than land is calculated on cost, using the *Straight-line Method*, to allocate their cost or revalued amounts to their residual values over the estimated useful lives of the assets. The depreciation method used reflects the pattern in which the asset's future economic benefits or service potential are expected to be consumed by the municipality. Each part of an item of Property, Plant and Equipment with a cost that is significant in relation to the total cost of the item is depreciated.

Depreciation only commences when the asset is available for use, unless stated otherwise. The depreciation rates are based on the following estimated useful lives:

	Asset Class	Years		Asset Class	Years
	<b>Buildings</b>			<b>Community</b>	
	Improvements	5 - 50		Community Facilities	5 - 50
	<b>Infrastructure</b>			Recreational Facilities	10 - 40
	Electricity	10 - 50		<b>Other</b>	
	Railways	30		Computer Equipment	5 - 10
	Roads and Paving	5 - 80		Emergency Equipment	5 - 10
	Sanitation	10 - 55		Furniture and Fittings	5 - 15
	Sewerage / Solid Waste	5 - 80		Motor Vehicles	7 - 10
	Water	5 - 80		Office Equipment	5 - 15
				Plant and Equipment	2 - 15
				Specialist Vehicles	10 - 15
				Other Assets	5 - 15

The assets' residual values, estimated useful lives and depreciation method are reviewed annually and adjusted prospectively, if appropriate, at each reporting date. Reviewing the useful life of an asset on an annual basis does not require the municipality to amend the previous estimate unless expectations differ from the previous estimate.

#### 3.4 Land

Land is stated at historical cost and is not depreciated as it is deemed to have an indefinite useful life.

#### 3.5 Infrastructure Assets

Infrastructure Assets are any assets that are part of a network of similar assets. Infrastructure Assets are shown at cost less accumulated depreciation and accumulated impairment. Infrastructure Assets are treated similarly to all other assets of the municipality in terms of the Asset Management Policy.

#### 3.6 Incomplete Construction Work

Incomplete Construction Work is stated at historical cost. Depreciation only commences when the asset is available for use.

#### 3.7 Derecognition

The carrying amount of an item of Property, Plant and Equipment is derecognised on disposal, or when no future economic benefits or service potential are expected from its use or disposal.

The gain or loss arising from the derecognition of an item of Property, Plant and Equipment is included in surplus or deficit when the item is derecognised. Gains are not classified as revenue.

Gains or losses are calculated as the difference between the carrying value of assets (cost less accumulated depreciation and accumulated impairment losses) and the proceeds from disposals are included in the Statement of Financial Performance as a gain or loss on disposal of Property, Plant and Equipment.

## GA-SEGONYANA MUNICIPALITY

### ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2014

#### 4. INTANGIBLE ASSETS

The municipality changed its Accounting Policy from GRAP 102 to GRAP 31 with no effect on the financial information previously disclosed.

##### 4.1 Initial Recognition

Identifiable non-monetary assets without physical substance are classified and recognised as Intangible Assets. The municipality recognises an Intangible Asset in its Statement of Financial Position only when it is probable that the expected future economic benefits or service potential that are attributable to the asset will flow to the municipality and the cost or fair value of the asset can be measured reliably.

Internally generated Intangible Assets are subject to strict recognition criteria before they are capitalised. Research expenditure is recognised as an expense as it is incurred. Costs incurred on development projects (relating to the design and testing of new or improved products) are recognised as Intangible Assets when the following criteria are fulfilled:

- (a) It is technically feasible to complete the Intangible Asset so that it will be available for use;
- (b) Management intends to complete the Intangible Asset and use or sell it;
- (c) There is an ability to use or sell the Intangible Asset;
- (d) It can be demonstrated how the Intangible Asset will generate probable future economic benefits;
- (e) Adequate technical, financial and other resources to complete the development and to use or sell the Intangible Asset are available; and
- (f) The expenditure attributable to the Intangible Asset during its development can be reliably measured.

Other development expenditures that do not meet these criteria are recognised as an expense as incurred. Development costs previously recognised as an expense are not recognised as an asset in a subsequent period. Capitalised development costs are recorded as Intangible Assets and amortised from the point at which the asset is available for use. Development assets are tested for impairment annually, in accordance with GRAP 21 or GRAP 26.

Intangible Assets are initially recognised at cost. The cost of an Intangible Asset is the purchase price and other costs attributable to bring the Intangible Asset to the location and condition necessary for it to be capable of operating in the manner intended by the municipality, or where an Intangible Asset is acquired at no cost, or for a nominal cost, the cost shall be its fair value as at the date of acquisition. Trade discounts and rebates are deducted in arriving at the cost.

The cost of an Intangible Asset acquired in exchange for non-monetary assets or monetary assets, or a combination of monetary and non-monetary assets, is measured at the fair value of the asset given up, unless the fair value of the asset received is more clearly evident. If the acquired item could not be measured at its fair value, its cost is measured at the carrying amount of the asset given up. If the acquired item's fair value was not determinable, its deemed cost is the carrying amount of the asset(s).

##### 4.2 Subsequent Measurement, Amortisation and Impairment

After initial recognition, Intangible Assets are carried at cost less any accumulated amortisation and any accumulated impairment losses.

Expenditure on an intangible item that was initially recognised as an expense shall not be recognised as part of the cost of an Intangible Asset at a later date.

In terms of GRAP 31, Intangible Assets are distinguished between internally generated Intangible Assets and other Intangible Assets. It is further distinguished between indefinite or finite useful lives. Amortisation is charged on a *Straight-line Basis* over the Intangible Assets' useful lives. The residual value of Intangible Assets with finite useful lives is zero, unless an active market exists. Where Intangible Assets are deemed to have indefinite useful lives, such Intangible Assets are not amortised. However, such Intangible Assets are subject to an annual impairment test.

Amortisation only commences when the asset is available for use, unless stated otherwise. The amortisation rates are based on the following estimated useful lives:

	Asset Class	Years		Asset Class	Years
	Computer Software	5			

## GA-SEGONYANA MUNICIPALITY

### ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2014

Intangible Assets are annually tested for impairment as described in Accounting Policy 7 on Impairment of Assets, including Intangible Assets not yet available for use. Where items of Intangible Assets have been impaired, the carrying value is adjusted by the impairment loss, which is recognised as an expense in the period that the impairment is identified. The impairment loss is the difference between the carrying amount and the recoverable service amount.

The estimated useful life, residual values and amortisation method are reviewed annually at the end of the financial year. Any adjustments arising from the annual review are applied prospectively as a Change in Accounting Estimate in the Statement of Financial Performance.

#### **4.3 Derecognition**

Intangible Assets are derecognised when the asset is disposed of or when there are no further economic benefits or service potential expected from the use of the asset. The gain or loss arising on the disposal or retirement of an Intangible Asset is determined as the difference between the proceeds of disposal and the carrying value and is recognised in the Statement of Financial Performance.

## 5. INVESTMENT PROPERTY

### **5.1 Initial Recognition**

Investment Property includes property (land or a building, or part of a building, or both land and buildings held under a finance lease) held to earn rentals and/or for capital appreciation, rather than held to meet service delivery objectives, the production or supply of goods or services, or the sale of an asset in the ordinary course of operations.

At initial recognition, the municipality measures Investment Property at cost including transaction costs once it meets the definition of Investment Property. However, where an Investment Property was acquired through a non-exchange transaction (i.e. where it acquired the Investment Property for no or a nominal value), its cost is its fair value as at the date of acquisition.

The cost of self-constructed Investment Property is the cost at date of completion.

Based on management's judgement, the following criteria have been applied to distinguish Investment Properties from owner occupied property or property held for resale:

- (a) Land held for long-term capital appreciation rather than for short-term sale in the ordinary course of operations;
- (b) Land held for a currently undetermined future use (If the municipality has not determined that it will use the land as owner-occupied property or for short-term sale in the ordinary course of operations, the land is regarded as held for capital appreciation);
- (c) A building owned by the municipality (or held by the municipality under a finance lease) and leased out under one or more operating leases on a commercial basis (this will include the property portfolio rented out on a commercial basis on behalf of the municipality);
- (d) A property owned by the municipality and leased out at a below market rental; and
- (e) Property that is being constructed or developed for future use as investment property.

The rent earned does not have to be at a commercial basis or market related for the property to be classified as investment

The following assets do not fall in the ambit of Investment Property and shall be classified as Property, Plant and Equipment, Inventory or Non-current Assets Held-for-Sale, as appropriate:

- (a) Property held for sale in the ordinary course of operations or in the process of construction or development for such sale;
- (b) Property being constructed or developed on behalf of third parties;
- (c) Owner-occupied property, including (among other things) property held for future use as owner-occupied property, property held for future development and subsequent use as owner-occupied property, property occupied by employees such as housing for personnel (whether or not the employees pay rent at market rates) and owner-occupied property awaiting disposal;
- (d) Property that is leased to another entity under a finance lease;
- (e) Property held to provide goods and services and also generates cash inflows; and
- (f) Property held for strategic purposes which would be accounted for in accordance with the Standard of GRAP on Property, Plant and Equipment.

## GA-SEGONYANA MUNICIPALITY

### ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2014

#### **5.2 Subsequent Measurement**

Investment Property is measured using the *Cost Model* and is stated at cost less accumulated depreciation and accumulated impairment losses. Depreciation is calculated on cost, using the *Straight-line Method* over the useful life of the property, which is estimated at 5 - 30 years. Components of assets that are significant in relation to the whole asset and that have different useful lives are depreciated separately.

The gain or loss arising on the disposal of an Investment Property is determined as the difference between the sales proceeds and the carrying value and is recognised in the Statement of Financial Performance.

#### **5.3 Derecognition**

An Investment Property shall be derecognised (eliminated from the Statement of Financial Position) on disposal or when the Investment Property is permanently withdrawn from use and no future economic benefits or service potential are expected from its disposal.

## **6. HERITAGE ASSETS**

A Heritage Asset is defined as an asset that has a cultural, environmental, historical, natural, scientific, technological or artistic significance, and is held and preserved indefinitely for the benefit of present and future generations.

Heritage Assets are not depreciated owing to uncertainty regarding to their estimated useful lives. The municipality assess at each reporting date if there is an indication of impairment.

#### **6.1 Initial Recognition**

The cost of an item of Heritage Assets is recognised as an asset if, and only if, it is probable that future economic benefits or service potential associated with the item will flow to the municipality, and if the cost or fair value of the item can be measured

Heritage Assets are initially recognised at cost on its acquisition date or in the case of assets acquired by grant or donation, deemed cost, being the fair value of the asset on initial recognition. The cost of an item of Heritage Assets is the purchase price and other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by the municipality. Trade discounts and rebates are deducted in arriving at the cost. The cost also includes the necessary costs of dismantling and removing the asset and restoring the site on which it is located.

Where an asset is acquired by the municipality for no or nominal consideration (i.e. a non-exchange transaction), the cost is deemed to be equal to the fair value of that asset on the date acquired.

The cost of an item of Heritage Assets acquired in exchange for a non-monetary asset or monetary asset, or a combination of monetary and non-monetary assets, is measured at the fair value of the asset given up, unless the fair value of the asset received is more clearly evident. If the acquired item could not be measured at its fair value, its cost is measured at the carrying amount of the asset given up.

#### **6.2 Subsequent Measurement**

Subsequent expenditure relating to Heritage Assets is capitalised if it is probable that future economic benefits or potential service delivery associated with the subsequent expenditure will flow to the municipality and the cost or fair value of the subsequent expenditure can be reliably measured. Subsequent expenditure incurred on an asset is only capitalised when it increases the capacity or future economic benefits associated with the asset. Where the municipality replaces parts of an asset, it derecognises the part of the asset being replaced and capitalises the new component.

Subsequently all Heritage Assets are measured at cost, less accumulated impairment losses.

#### **6.3 Derecognition**

The carrying amount of an item of Heritage Assets is derecognised on disposal, or when no future economic benefits or service potential are expected from its use or disposal. The gain or loss arising from the derecognition of an item of Heritage Assets is included in surplus or deficit when the item is derecognised. Gains are not classified as revenue. Gains or losses are calculated as the difference between the carrying value of assets (cost less accumulated impairment losses) and the disposal proceeds is included in the Statement of Financial Performance as a gain or loss on disposal of Heritage Assets.

## GA-SEGONYANA MUNICIPALITY

### ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2014

#### 6.4 *Transitional Provisions*

The municipality utilised the transitional provisions under Directive 4, which allows 3 years for the measurement of Heritage

## 7. IMPAIRMENT OF ASSETS

The municipality classifies all assets held with the primary objective of generating a commercial return as *Cash Generating Assets*. All other assets are classified as *Non-cash Generating Assets*.

### 7.1 *Impairment of Cash Generating Assets*

The municipality assesses at each reporting date whether there is any indication that an asset may be impaired.

If there is any indication that an asset may be impaired, the recoverable amount is estimated for the individual asset. If it is not possible to estimate the recoverable amount of the individual asset, the recoverable amount of the cash generating unit to which the asset belongs is determined.

The recoverable amount of an asset or a cash generating unit is the higher of its fair value less costs to sell and its value in use. The best evidence of fair value less cost to sell is the price in a binding sale agreement in an arm's length transaction, adjusted for the incremental cost that would be directly attributable to the disposal of the asset.

Value in use of a cash-generating asset is the present value of the estimated future cash flows expected to be derived from the continuing use of an asset and from its disposal at the end of its useful life.

If the recoverable amount of an asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. That reduction is an impairment loss.

An impairment loss of assets carried at cost less any accumulated depreciation or amortisation is recognised immediately in the Statement of Financial Performance.

An impairment loss is recognised for cash generating units if the recoverable amount of the unit is less than the carrying amount of the unit. The impairment loss is allocated to reduce the carrying amount of the assets of the unit pro rata on the basis of the carrying amount of each asset in the unit.

The municipality assesses at each reporting date whether there is any indication that an impairment loss recognised in prior periods for assets may no longer exist or may have decreased. If any such indication exists, the recoverable amounts of those assets are estimated.

The increased carrying amount of an asset attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior periods.

A reversal of an impairment loss of assets carried at cost less accumulated depreciation or amortisation is recognised immediately in the Statement of Financial Performance.

### 7.2 *Impairment of Non-cash Generating Assets*

The municipality assesses at each reporting date whether there is any indication that an asset may be impaired.

If there is any indication that an asset may be impaired, the recoverable service amount is estimated for the individual asset. If it is not possible to estimate the recoverable service amount of the individual asset, the recoverable service amount of the non-cash generating unit to which the asset belongs is determined.

The recoverable service amount of a non-cash generating asset is the higher of its fair value less costs to sell and its value in use. The value in use for a non-cash generating asset is the present value of the asset's remaining service potential.

Fair value less costs to sell is the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable, willing parties, less the costs of disposal.

If the recoverable service amount of an asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable service amount. That reduction is an impairment loss.

## GA-SEGONYANA MUNICIPALITY

### ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2014

An impairment loss of assets carried at cost less any accumulated depreciation or amortisation is recognised immediately in the Statement of Financial Performance.

An impairment loss is recognised for non-cash generating units if the recoverable service amount of the unit is less than the carrying amount of the unit. The impairment loss is allocated to reduce the carrying amount of the assets of the unit pro rata on the basis of the carrying amount of each asset in the unit.

The municipality assesses at each reporting date whether there is any indication that an impairment loss recognised in prior periods for assets may no longer exist or may have decreased. If any such indication exists, the recoverable service amounts of those assets are estimated.

The increased carrying amount of an asset attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior periods.

A reversal of an impairment loss of assets carried at cost less accumulated depreciation or amortisation is recognised immediately in the Statement of Financial Performance.

## 8. FINANCIAL INSTRUMENTS

The municipality has various types of Financial Instruments and these can be broadly categorised as *Financial Assets*, *Financial Liabilities* or *Residual Interests* in accordance with the substance of the contractual agreement. The municipality only recognises a Financial Instrument when it becomes a party to the contractual provisions of the instrument.

#### Initial Recognition

Financial Assets and Financial Liabilities are recognised on the municipality's Statement of Financial Position when it becomes party to the contractual provisions of the instrument.

The municipality does not offset a Financial Asset and a Financial Liability unless a legally enforceable right to set off the recognised amounts currently exist and the municipality intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

#### Fair Value Methods and Assumptions

The fair values of Financial Instruments are determined as follows:

- The fair values of quoted investments are based on current bid prices.
- If the market for a Financial Asset is not active (and for unlisted securities), the municipality establishes fair value by using valuation techniques. These include the use of recent arm's length transactions, reference to other instruments that are substantially the same, discounted cash flow analysis, and option pricing models making maximum use of market inputs and relying as little as possible on entity-specific inputs.

#### The Effective Interest Rate Method

The Effective Interest Method is a method of calculating the amortised cost of a Financial Asset or a Financial Liability and of allocating the interest income or interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the Financial Instrument or, when appropriate, a shorter period to the net carrying amount of the Financial Asset or Financial Liability.

#### Amortised Cost

Amortised Cost is the amount at which the Financial Asset or Financial Liability is measured at initial recognition minus principal repayments, plus or minus the cumulative amortisation, using the Effective Interest Rate Method of any difference between that initial amount and the maturity amount, and minus any reduction for impairment or uncollectability.

## GA-SEGONYANA MUNICIPALITY

### ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2014

#### 8.1 Financial Assets – Classification

A Financial Asset is any asset that is a cash, a contractual right to receive cash or another financial asset from another entity.

In accordance with GRAP 104 the Financial Assets of the municipality are classified as follows into the three categories allowed by this standard:

- **Financial Assets measured at Amortised Cost** are non-derivative Financial Assets with fixed or determinable payments that are not quoted in an active market. They are included in Current Assets, except for maturities greater than 12 months, which are classified as Non-current Assets. Financial Assets at Amortised Cost are initially recognised at fair value plus transaction costs that are directly attributable to the acquisition or issue of the Financial Asset. After initial recognition, Financial Assets are measured at amortised cost, using the *Effective Interest Rate Method* less a provision for impairment.
- **Financial Assets measured at Fair Value** are financial assets that meet either of the following conditions:
  - (i) Derivatives;
  - (ii) Combined instruments that are designated at fair value;
  - (iii) Instruments held for trading;
  - (iv) Non-derivative Financial Instruments with fixed or determinable payments that are designated at fair value at initial recognition; or
  - (v) Financial Instruments that do not meet the definition of Financial Instruments at Amortised Cost or Financial Instruments at Cost.
- **Financial Assets measured at Cost** are investments in residual Interest that do not have a quoted market price in an active market and whose fair value cannot be reliably measured.

The municipality has the following types of Financial Assets as reflected on the face of the Statement of Financial Position or in the Notes thereto:

Type of Financial Asset	Classification in terms of GRAP 104
Long-term Receivables	Financial Assets at Amortised Cost
Receivables from Exchange Transactions	Financial Assets at Amortised Cost
Receivables from Non-exchange Transactions	Financial Assets at Amortised Cost
Bank, Cash and Cash Equivalents – Notice Deposits	Financial Assets at Amortised Cost
Bank, Cash and Cash Equivalents – Call Deposits	Financial Assets at Amortised Cost
Bank, Cash and Cash Equivalents – Bank	Financial Assets at Amortised Cost
Bank, Cash and Cash Equivalents – Cash	Financial Assets at Fair Value
Current Portion of Long-term Receivables	Financial Assets at Amortised Cost

Cash includes cash-on-hand (including petty cash) and cash with banks (including call deposits). Cash Equivalents are short-term highly liquid investments, readily convertible into known amounts of cash, which are held with registered banking institutions with maturities of three months or less and are subject to an insignificant risk of change in value. For the purposes of the Cash Flow Statement, Cash and Cash Equivalents comprise cash-on-hand and deposits held on call with banks, net of bank overdrafts. The municipality categorises Cash and Cash Equivalents as Financial Assets at Amortised Cost.

#### 8.2 Financial Liabilities – Classification

A Financial Liability is a contractual obligation to deliver cash or another Financial Assets to another entity.

There are three main categories of Financial Liabilities, the classification determining how they are measured. Financial Liabilities may be measured at:

- (i) Financial Liabilities measured at Fair Value;
- (ii) Financial Liabilities measured at Amortised Cost; or
- (iii) Financial Liabilities measured at Cost.

The municipality has the following types of Financial Liabilities as reflected on the face of the Statement of Financial Position or in the Notes thereto:

Type of Financial Asset	Classification in terms of GRAP 104
Payables from Exchange Transactions	Financial Liabilities at Amortised Cost
Payables from Non-exchange Transactions	Financial Liabilities at Amortised Cost

## GA-SEGONYANA MUNICIPALITY

### ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2014

**Financial Liabilities that are measured at Fair Value** are Financial Liabilities that are essentially held for trading (i.e. purchased with the intention to sell or repurchase in the short term; derivatives other than hedging instruments or are part of a portfolio of Financial Instruments where there is recent actual evidence of short-term profiteering or are derivatives).

#### 8.3 Initial and Subsequent Measurement

##### 8.3.1 Financial Assets:

###### Financial Assets measured at Amortised Cost

*Financial Assets at Amortised Cost* are initially measured at fair value plus transaction costs that are directly attributable to the acquisition or issue of the Financial Asset. Subsequently, these assets are measured at amortised cost using the *Effective Interest Method* less any impairment, with interest recognised on an *Effective Yield Basis*.

*Trade and Other Receivables* (excluding Value Added Taxation, Prepayments and Operating Lease receivables), Loans to Municipal Entities and Loans that have fixed and determinable payments that are not quoted in an active market are classified as *Financial Assets at Amortised Cost*.

###### Financial Assets measured at Fair Value

*Financial Assets at Fair Value* are initially measured at fair value, excluding directly attributable transaction costs. They are subsequently measured at fair value with unrealised gains or losses recognised directly in the Statement of Financial

##### 8.3.2 Financial Liabilities:

###### Financial Liabilities measured at Fair Value

*Financial Liabilities at Fair Value* are stated at fair value, with any resulted gain or loss recognised in the Statement of Financial Performance.

###### Financial Liabilities held at Amortised Cost

Any other Financial Liabilities are classified as *Other Financial Liabilities* (All Payables, Loans and Borrowings are classified as Other Liabilities) and are initially measured at fair value, net of transaction costs. Trade and Other Payables, Interest-bearing Debt including Finance Lease Liabilities, Non-interest-bearing Debt and Bank Borrowings are subsequently measured at amortised cost using the *Effective Interest Rate Method*. Interest expense is recognised in the Statement of Financial Performance by applying the effective interest rate.

Prepayments are carried at cost less any accumulated impairment losses.

#### 8.4 Impairment of Financial Assets

Financial Assets, other than those at fair value, are assessed for indicators of impairment at the end of each reporting period. Financial Assets are impaired where there is objective evidence of impairment of Financial Assets (such as the probability of insolvency or significant financial difficulties of the debtor). If there is such evidence the recoverable amount is estimated and an impairment loss is recognised in accordance with GRAP 104.

##### 8.4.1 Financial Assets at Amortised Cost

Accounts Receivable encompass Long-term Debtors, Receivables from Exchange Transactions (Consumer Debtors) and Receivables from Non-exchange Transactions (Other Debtors).

Initially Accounts Receivable are valued at fair value excluding transaction costs, and subsequently carried at amortised cost using the *Effective Interest Rate Method*. An estimate is made for doubtful debt based on past default experience of all outstanding amounts at year-end. Bad debts are written off the year in which they are identified as irrecoverable. Amounts receivable within 12 months from the date of reporting are classified as current.

A provision for impairment of Accounts Receivables is established when there is objective evidence that the municipality will not be able to collect all amounts due according to the original terms of receivables. The provision is made in accordance with GRAP 104 whereby the recoverability of accounts receivable is assessed individually and then collectively after grouping the assets in financial assets with similar credit risk characteristics. The amount of the provision is the difference between the Financial Asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. Future cash flows in a group of Financial Assets that are collectively evaluated for impairment are estimated on the basis of historical loss experience for assets with credit risk characteristics similar to those in the group. Cash flows relating to short-term receivables are not discounted where the effect of discounting is immaterial.

Government accounts are not provided for as such accounts are regarded as receivable.

## GA-SEGONYANA MUNICIPALITY

### ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2014

The carrying amount of the Financial Asset is reduced by the impairment loss directly for all Financial Assets carried at Amortised Cost with the exception of Consumer Debtors, where the carrying amount is reduced through the use of an allowance account. When a Consumer Debtor is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against revenue. Changes in the carrying amount of the allowance account are recognised in the Statement of Financial Performance.

#### 8.4.2 Financial Assets at Cost

If there is objective evidence that an impairment loss has been incurred on an investment in a Residual Interest that is not measured at fair value because its fair value cannot be measured reliably, the amount of the impairment loss is measured as the difference between the carrying amount of the Financial Asset and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment losses shall not be reversed.

#### 8.5 Derecognition of Financial Assets

The municipality derecognises Financial Assets only when the contractual rights to the cash flows from the asset expires or it transfers the Financial Asset and substantially all the risks and rewards of ownership of the asset to another entity, except when Council approves the write-off of Financial Assets due to non-recoverability.

If the municipality neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the municipality recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the municipality retains substantially all the risks and rewards of ownership of a transferred Financial Asset, the municipality continues to recognise the Financial Asset and also recognises a collateralised borrowing for the proceeds received.

#### 8.6 Derecognition of Financial Liabilities

The municipality derecognises Financial Liabilities when, and only when, the municipality's obligations are discharged, cancelled or they expire.

The municipality recognises the difference between the carrying amount of the Financial Liability (or part of a Financial Liability) extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, in the Statement of Financial Performance.

## 9. INVESTMENT IN JOINT VENTURES

## 10. INVENTORIES

### 10.1 Initial Recognition

Inventories comprise current assets held-for-sale, current assets for consumption or distribution during the ordinary course of business. Inventories are initially recognised at cost. Cost generally refers to the purchase price, plus taxes, transport costs and any other costs in bringing the Inventories to their current location and condition. Where Inventory is manufactured, constructed or produced, the cost includes the cost of labour, materials and overheads used during the manufacturing process.

Where Inventory is acquired by the municipality for no or nominal consideration (i.e. a non-exchange transaction), the cost is deemed to be equal to the fair value of the item on the date acquired.

Direct costs relating to properties that will be sold as Inventory are accumulated for each separately identifiable development. Costs also include a proportion of overhead costs.

### 10.2 Subsequent Measurement

#### 10.2.1 Consumable Stores, Raw Materials, Work-in-Progress and Finished Goods

Consumable stores, raw materials, work-in-progress, inventories distributed at no charge or for a nominal charge and finished goods are valued at the lower of cost and net realisable value (net amount that the municipality expects to realise from the sale on Inventory in the ordinary course of business). The cost is determined using the *FIFO* cost of commodities.

## GA-SEGONYANA MUNICIPALITY

### ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2014

#### 10.2.2 Water Inventory

Water is regarded as Inventory when the municipality purchases water in bulk with the intention to resell it to the consumers or to use it internally, or where the municipality has incurred purification costs on water obtained from natural resources (rain, rivers, springs, boreholes, etc). However, water in dams, that are filled by natural resources and that has not yet been treated, that is under the control of the municipality but cannot be measured reliably as there is no cost attached to the water, is therefore not recognised in the Statement of Financial Position.

The basis of determining the cost of water purchased and not yet sold at Statement of Financial Position date comprises all costs of purchase, cost of conversion and other costs incurred in bringing the Inventory to its present location and condition, net of trade discounts and rebates.

Water and purified effluent are valued by using the *FIFO Method*, at the lowest of purified cost and net realisable value, insofar as it is stored and controlled in reservoirs at year-end.

#### 10.2.3 Unsold Properties

Unsold properties are valued at the lower of cost and net realisable value on a *Weighted Average Cost Basis*. Direct costs are accumulated for each separately identifiable development. Cost also includes a portion of overhead costs, if this relates to development.

#### 10.2.4 Other Arrangements

Redundant and slow-moving Inventories are identified and written down from cost to net realisable value with regard to their estimated economic or realisable values and sold by public auction. Net realisable value is the estimated selling price in the ordinary course of business, less applicable variable selling expenses. Differences arising on the measurement of such Inventory at the lower of cost and net realisable value are recognised in the Statement of Financial Performance in the year in which they arise. The amount of any reversal of any write-down of Inventories arising from an increase in net realisable value or current replacement cost is recognised as a reduction in the amount of Inventories recognised as an expense in the period in which the reversal occurs.

The carrying amount of Inventories is recognised as an expense in the period that the Inventory was sold, distributed, written off or consumed, unless that cost qualifies for capitalisation to the cost of another asset.

## 11. NON-CURRENT ASSETS HELD-FOR-SALE

#### 11.1 Initial Recognition

Non-current Assets and Disposal Groups are classified as held-for-sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the asset (or disposal group) is available for immediate sale in its present condition. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of ~~classification~~.

#### 11.2 Subsequent Measurement

Non-current Assets and Disposal Groups classified as held-for-sale are measured at the lower of their previous carrying amount and fair value less costs to sell.

A non-current asset is not depreciated (or amortised) while it is classified as held-for-sale, or while it is part of a disposal group classified as held-for-sale.

Interest and other expenses attributable to the liabilities of a disposal group classified as held-for-sale are recognised in the Statement of Financial Performance.

The gain or loss on the eventual sale of non-current assets held-for-sale is included in the Statement of Financial Performance as gain or loss on sale of assets. The gain or loss on the eventual sale of non-current assets held-for-sale is calculated on the difference between the net disposal proceeds and the carrying amount of the individual asset or the disposal group.

## GA-SEGONYANA MUNICIPALITY

### ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2014

Assets acquired from non-exchange transactions are measured at fair value in accordance with the Standards of GRAP.

#### 12.3.4 Government Grants and Receipts

Conditional grants, donations and funding are recognised as revenue to the extent that the municipality has complied with any of the criteria, conditions or obligations embodied in the agreement. Where the agreement contains a stipulation to return the asset, other future economic benefits or service potential, in the event of non-compliance to these stipulations and would be enforced by the transferor, a liability is recognised to the extent that the criteria, conditions or obligations have not been met. Where such requirements are not enforceable, or where past experience has indicated that the transferor has never enforced the requirement to return the transferred asset, other future economic benefits or service potential when breaches have occurred, the stipulation will be considered a restriction and is recognised as revenue.

Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the municipality with no future related costs, are recognised in the Statement of Financial Performance in the period in which they become receivable.

Interest earned on investments is treated in accordance with grant conditions. If it is payable to the funder it is recorded as part of the creditor and if it is the municipality's interest, it is recognised as interest earned in the Statement of Financial Performance.

Revenue is recognised when all conditions associated with the contribution have been met or where the contribution is to finance property, plant and equipment, when such items of property, plant and equipment are brought into use.

#### 12.3.5 Revenue from Recovery of Unauthorised, Irregular, Fruitless and Wasteful Expenditure

Revenue from the recovery of unauthorised, irregular, fruitless and wasteful expenditure is based on legislated procedures, including those set out in the Municipal Finance Management Act (Act No 56 of 2003) and is recognised when the recovery thereof from the responsible councillors or officials is virtually certain.

## 13. PROVISIONS

Provisions are recognised when the municipality has a present or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation and a reliable estimate can be made of the obligation.

The best estimate of the expenditure required to settle the present obligation is the amount that the municipality would rationally pay to settle the obligation at the reporting date or to transfer it to a third party at that time and are determined by the judgment of the management of the municipality, supplemented by experience of similar transactions and, in some cases, reports from independent experts. The evidence considered includes any additional evidence provided by events after the reporting date. Uncertainties surrounding the amount to be recognised as a provision are dealt with by various means according to the circumstances. Where the provision being measured involves a large population of items, the obligation is estimated by weighting all possible outcomes by their associated probabilities.

Future events that may affect the amount required to settle an obligation are reflected in the amount of a provision where there is sufficient objective evidence that they will occur. Gains from the expected disposal of assets are not taken into account in measuring a provision. Provisions are not recognised for future operating losses. The present obligation under an onerous contract is recognised and measured as a provision. An onerous contract is a contract in which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received under it. The unavoidable costs under a contract reflect the least net cost of exiting from the contract, which is the lower of the cost of fulfilling it and any compensation or penalties arising from failure to fulfil it – this unavoidable cost resulting from the contract is the amount of the provision to be recognised.

Provisions are reviewed at reporting date and the amount of a provision is the present value of the expenditure expected to be required to settle the obligation. When the effect of discounting is material, provisions are determined by discounting the expected future cash flows that reflect current market assessments of the time value of money. The impact of the periodic unwinding of the discount is recognised in the Statement of Financial Performance as a finance cost as it occurs.

## GA-SEGONYANA MUNICIPALITY

### ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2014

#### **13.1 Provision for Environmental Rehabilitation**

Estimated long-term environmental provisions, comprising rehabilitation and landfill site closure, are based on the municipality's policy, taking into account current technological, environmental and regulatory requirements. The provision for rehabilitation is recognised as and when the environmental liability arises. To the extent that the obligations relate to the asset, they are capitalised as part of the cost of those assets. Any subsequent changes to an obligation that did not relate to the initial related asset are charged to the Statement of Financial Performance.

### **14. EMPLOYEE BENEFIT LIABILITIES**

The municipality changed its Accounting Policy from IAS 19 to GRAP 25 with no effect on the financial information previously disclosed.

#### **14.1 Short-term Employee Benefits**

Remuneration to employees is recognised in the Statement of Financial Performance as the services are rendered, except for non-accumulating benefits which are only recognised when the specific event occurs.

The municipality has opted to treat its provision for leave pay as an accrual.

The costs of all short-term employee benefits such as leave pay, are recognised during the period in which the employee renders the related service. The liability for leave pay is based on the total accrued leave days at year end and is shown as a creditor in the Statement of Financial Position. The municipality recognises the expected cost of performance bonuses only when the municipality has a present legal or constructive obligation to make such payment and a reliable estimate can be made.

#### **14.2 Post-employment Benefits**

The municipality provides retirement benefits for its employees and councillors, and has both defined benefit and defined contribution post-employment plans.

##### **14.2.1 Defined Contribution Plans**

A **Defined Contribution Plan** is a plan under which the municipality pays fixed contributions into a separate entity. The municipality has no legal or constructive obligation to pay further contributions if the fund does not hold sufficient assets to pay all employees the benefits relating to service in the current or prior periods.

The municipality's contributions to the defined contribution funds are established in terms of the rules governing those plans. Contributions are recognised in the Statement of Financial Performance in the period in which the service is rendered by the relevant employees. The municipality has no further payment obligations once the contributions have been paid. The contributions are recognised as employee benefit expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

##### **14.2.2 Defined Benefit Plans**

A **Defined Benefit Plan** is a post-employment benefit plan other than a defined contribution plan.

###### **Post-retirement Health Care Benefits**

The municipality has an obligation to provide Post-retirement Health Care Benefits to certain of its retirees. According to the rules of the Medical Aid Funds with which the municipality is associated, a member (who is on the current Conditions of Service), on retirement, is entitled to remain a continued member of the Medical Aid Fund, in which case the municipality is liable for a certain portion of the medical aid membership fee. Not all Medical Aid Funds with which the Municipality is associated, provide for continued membership.

The defined benefit liability is the aggregate of the present value of the defined benefit obligation and unrecognised actuarial gains and losses, reduced by unrecognised past service costs. The plan is unfunded. The present value of the defined benefit obligation is calculated using the *Projected Unit Credit Method*, incorporating actuarial assumptions and a discount rate based on the government bond rate. Valuations of these obligations are carried out annually by independent qualified actuaries.

Actuarial gains or losses are recognised immediately in the Statement of Financial Performance.

Past-service costs are recognised immediately in the Statement of Financial Performance.

## GA-SEGONYANA MUNICIPALITY

### ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2014

#### **Long-service Allowance**

The municipality has an obligation to provide Long-service Allowance Benefits to all of its employees. According to the rules of the Long-service Allowance Scheme, which the municipality instituted and operates, an employee (who is on the current Conditions of Service), is entitled to a cash allowance, calculated in terms of the rules of the scheme, after 10, 15, 20, 25 and 30 years of continued service. The municipality's liability is based on an actuarial valuation. The *Projected Unit Credit Method* is used to value the liabilities. Actuarial gains and losses on the long-term incentives are accounted for through the Statement of Financial Performance.

#### **Provincially-administered Defined Benefit Plans**

The municipality contributes to various National- and Provincial-administered Defined Benefit Plans on behalf of its qualifying employees. These funds are multi-employer funds. The contributions to fund obligations for the payment of retirement benefits are charged against revenue in the year they become payable. These defined benefit funds are actuarially valued triennially on the Projected Unit Credit Method basis. Deficits are recovered through lump sum payments or increased future contributions on a proportional basis from all participating municipalities.

#### **Defined Benefit Pension Plans**

The municipality has an obligation to provide Post-retirement Pension Benefits to certain of its retirees. Pension contributions in respect of employees who were not members of a pension fund are recognised as an expense when incurred. Staff provident funds are maintained to accommodate personnel who, due to age, cannot join or be part of the various pension funds. The municipality contributes monthly to the funds.

The liability recognised in the Statement of Financial Position in respect of defined benefit pension plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets, together with adjustments for unrecognised past-service costs. The defined benefit obligation is calculated annually by independent actuaries using the *Projected Unit Credit Method*. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of high-quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating to the terms of the related pension liability.

Actuarial gains or losses are recognised immediately in the Statement of Financial Performance.

Past-service costs are recognised immediately in the Statement of Financial Performance.

## **15. LEASES**

### **15.1 Classification**

Leases are classified as **Finance Leases** where substantially all the risks and rewards associated with ownership of an asset are transferred to the municipality.

Leases of property, plant and equipment, in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as **Operating Leases**.

### **15.2 The Municipality as Lessee**

#### **15.2.1 Operating Leases**

The municipality recognises operating lease rentals as an expense in the Statement of Financial Performance on a *Straight-line Basis* over the term of the relevant lease. The difference between the amounts recognised as an expense and the contractual payments are recognised as an operating lease asset or liability.

In the event that lease incentives are received to enter into operating leases, such incentives are recognised as a liability. The aggregate benefit of incentives is recognised as a reduction of rental expense on a *Straight-line Basis*, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

### **15.3 The Municipality as Lessor**

Amounts due from lessees under **Finance Leases** or instalment sale agreements are recorded as receivables at the amount of the municipality's net investment in the leases. Finance lease or instalment sale revenue is allocated to accounting periods so as to reflect a constant periodic rate of return on the municipality's net investment outstanding in respect of the leases or instalment sale agreements.

Rental revenue from **Operating Leases** is recognised on a *Straight-line Basis* over the term of the relevant lease.

## GA-SEGONYANA MUNICIPALITY

### ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2014

#### 16. BORROWING COSTS

#### 17. GRANTS-IN-AID

The municipality transfers money to individuals, organisations and other sectors of government from time to time. When making these transfers, the municipality does not:

- (a) Receive any goods or services directly in return, as would be expected in a purchase or sale transaction;
- (b) Expect to be repaid in future; or
- (c) Expect a financial return, as would be expected from an investment.

These transfers are recognised in the Statement of Financial Performance as expenses in the period that the events giving rise to the transfer occurred.

#### 18. VALUE ADDED TAX

The municipality accounts for Value Added Tax on the Payments Basis in accordance with section 15(2)(a) of the Value-Added Tax Act (Act No 89 of 1991).

#### 19. UNAUTHORISED EXPENDITURE

Unauthorised Expenditure is expenditure that has not been budgeted for, expenditure that is not in terms of the conditions of an allocation received from another sphere of government, municipality or organ of state, and expenditure in the form of a grant that is not permitted in terms of the Municipal Finance Management Act (Act No 56 of 2003). All expenditure relating to Unauthorised Expenditure is accounted for as an expense in the Statement of Financial Performance in the year that the expenditure was incurred. The expenditure is classified in accordance with the nature of the expense, and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

#### 20. IRREGULAR EXPENDITURE

Irregular Expenditure is expenditure that is contrary to the Municipal Finance Management Act (Act No 56 of 2003), the Municipal Systems Act (Act No 32 of 2000), the Public Office Bearers Act (Act No 20 of 1998), or is in contravention of the Municipality's or Municipal Entities' Supply Chain Management Policies. Irregular Expenditure excludes Unauthorised Expenditure. Irregular Expenditure is accounted for as an expense in the Statement of Financial Performance in the period it occurred and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

#### 21. FRUITLESS AND WASTEFUL EXPENDITURE

Fruitless and Wasteful Expenditure is expenditure that was made in vain and would have been avoided had reasonable care been exercised. All expenditure relating to Fruitless and wasteful expenditure is accounted for as expenditure in the Statement of Financial Performance in the year that the expenditure was incurred. The expenditure is classified in accordance with the nature of the expense, and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

#### 22. CHANGES IN ACCOUNTING POLICIES, ESTIMATES AND ERRORS

**Changes in Accounting Policies** that are affected by management have been applied retrospectively in accordance with GRAP 3 requirements, except to the extent that it is impractical to determine the period-specific effects or the cumulative effect of the change in policy. In such cases the municipality restated the opening balances of assets, liabilities and net assets for the earliest period for which retrospective restatement is practical. Details of Changes in Accounting Policies are disclosed in the Notes to the Annual Financial Statements where applicable.

**Changes in Accounting Estimates** are applied prospectively in accordance with GRAP 3 requirements. Details of changes in estimates are disclosed in the Notes to the Annual Financial Statements where applicable.

## GA-SEGONYANA MUNICIPALITY

### ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2014

**Correction of Errors** is applied retrospectively in the period in which the error has occurred in accordance with GRAP 3 requirements, except to the extent that it is impractical to determine the period-specific effects or the cumulative effect of the error. In such cases the municipality shall restate the opening balances of assets, liabilities and net assets for the earliest period for which retrospective restatement is practical. Details of Correction of Errors are disclosed in the Notes to the Annual Financial Statements where applicable.

#### 23. TREATMENT OF ADMINISTRATION AND OTHER OVERHEAD EXPENSES

The costs of internal support services are transferred to the various services and departments to whom resources are made available.

#### 24. CONTINGENT ASSETS AND CONTINGENT LIABILITIES

**Contingent Liabilities** represent a possible obligation that arises from past events and whose existence will be confirmed only by an occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the municipality. A contingent liability can also arise as a result of a present obligation that arises from past events but which is not recognised as a liability either because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability.

**Contingent Assets** represent possible assets that arise from past events and whose existence will be confirmed only by an occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the municipality.

Contingent Assets and Contingent Liabilities are not recognised. Contingencies are disclosed in Notes to the Annual Financial Statements.

#### 25. COMMITMENTS

Commitments are future expenditure to which the municipality committed and that will result in the outflow of resources. Commitments are not recognised in the Statement of Financial Position as a liability or as expenditure in the Statement of Financial Performance, but are included in the disclosure Notes. A distinction is made between capital and current commitments.

Commitments are disclosed for:

- Approved and contracted commitments, where the expenditure has been approved and the contract has been awarded at the reporting date, where disclosure is required by a specific standard of GRAP.
- Approved but not yet contracted commitments, where the expenditure has been approved and the contract has yet to be awarded or is awaiting finalisation at the reporting date.
- Items are classified as commitments where the municipality commits itself to future transactions that will normally result in the outflow of resources.
- Contracts that are entered into before the reporting date, but goods and services have not yet been received are disclosed in the disclosure Notes to the Annual Financial Statements.
- Other commitments for contracts that are non-cancellable or only cancellable at significant cost, should relate to something other than the business of the municipality.

#### 26. RELATED PARTIES

The municipality changed its Accounting Policy from IPSAS 20 to GRAP 20 with no effect on the financial information previously disclosed.

Individuals as well as their close family members, and/or entities are related parties if one party has the ability, directly or indirectly, to control or jointly control the other party or exercise significant influence over the other party in making financial and/or operating decisions. Management is regarded as a related party and comprises the Councillors, Mayor, Executive Committee Members, Municipal Manager, Chief Financial Officer and all other managers reporting directly to the Municipal Manager or as designated by the Municipal Manager.

#### 27. EVENTS AFTER THE REPORTING DATE

## GA-SEGONYANA MUNICIPALITY

### ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2014

Events after the reporting date that are classified as adjusting events have been accounted for in the Annual Financial Statements. The events after the reporting date that are classified as Non-adjusting Events after the Reporting Date have been disclosed in Notes to the Annual Financial Statements.

#### 28. COMPARATIVE INFORMATION

##### *28.1 Current Year Comparatives*

In accordance with GRAP 1 Budgeted Amounts have been provided and forms part of the Annual Financial Statements.

##### *28.2 Prior Year Comparatives*

When the presentation or classification of items in the Annual Financial Statements is amended, prior period comparative amounts are reclassified. The nature and reason for the reclassification is disclosed.

##### *28.3 Budget Information*

The annual budget figures have been prepared in accordance with the GRAP standard and are consistent with the Accounting Policies adopted by the Council for the preparation of these Annual Financial Statements. The amounts are scheduled as a separate additional financial statement, called the Statement of Comparison of Budget and Actual amounts. Explanatory comment is provided in the statement giving reasons for overall growth or decline in the budget and motivations for over- or under spending on line items. The annual budget figures included in the Annual Financial Statements are for the municipality and do not include budget information relating to subsidiaries or associates. These figures are those approved by the Council at the beginning and during the year following a period of consultation with the public as part of the Integrated Development Plan. The budget is approved on an accrual basis by nature classification.

The approved budget covers the period from 1 July 2013 to 30 June 2014.

<b>Balance at end of year</b>	<b>27 071 351</b>	<b>26 545 701</b>

In determining the recoverability of Receivables, the municipality has placed strong emphasis on verifying the indigent status of consumers. Provision for impairment of Receivables has been made for all consumer balances outstanding based on the payment ratio over 12 months per service type. No further credit provision is required in excess of the Provision for Impairment.

No provision has been made in respect of government debt as these amounts are considered to be fully recoverable. The municipality holds collateral over these balances in the form of Consumer Deposits / Guarantees, which are not covering the total outstanding debt and vacant property respectively.

**GA-SEGONYANA MUNICIPALITY**  
**NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2014**

	2014	2013
	R	R
	2014	2013
<b>4.2 Reconciliation of Provision for Impairment</b>		
Balance at beginning of year	11 177 715	8 668 273
Impairment Losses recognised	3 650 692	2 509 443
Impairment Losses reversed	-	-
Amounts written off as uncollectable	-	-
Amounts recovered	-	-
<b>Balance at end of year</b>	<b>14 828 408</b>	<b>11 177 715</b>

The Provision for Impairment was calculated after grouping all the financial assets of similar nature and risk ratings and assessing the recoverability.

In determining the recoverability of a Rates Assessment Debtor and Receivables from Non-exchange Transactions, the municipality considers any change in the credit quality of the Rates Assessment Debtor from the date credit was initially granted up to the reporting date. The concentration of credit risk is limited due to the customer base being large and unrelated. Accordingly, the management believe that there is no further credit provision required in excess of the Provision for Impairment.

No Provision for Impairment has been made in respect of government debt as these amounts are considered to be fully recoverable. The municipality holds collateral over these balances in the form of Rates Assessment Deposits / Guarantees, which are not covering the total outstanding debt and vacant property respectively.

**5. VAT RECEIVABLE**

Vat Receivable	5 396 525	14 497 817
----------------	-----------	------------

Vat is payable on the receipts basis. Only once payment is received from debtors, VAT is paid over to SARS.

No interest is payable to SARS if the VAT is paid over timeously, but interest for late payments is charged according to SARS policies. The municipality has financial risk policies in place to ensure that payments are affected before the due date.

**6. CASH AND CASH EQUIVALENTS**

Current Investments	12 234 275	13 103 626
Bank Accounts	2 713 771	6 501 621
Cash and Cash Equivalents	6 520	288 253
<b>Total Bank, Cash and Cash Equivalents</b>	<b>14 954 566</b>	<b>19 893 500</b>

For the purposes of the Statement of Financial Position and the Cash Flow Statement, Cash and Cash Equivalents include Cash-on-Hand, Cash in Banks and Investments in Money Market Instruments, net of outstanding Bank Overdrafts.

**6.1 Current Investment Deposits**

Call Deposits	12 234 275	13 103 626
<b>Total Current Investment Deposits</b>	<b>12 234 275</b>	<b>13 103 626</b>

*ABSA - Kuruman - Account Number 9264748829:*

Bank statement balance at beginning of year	13 103 626	-
Bank statement balance at end of year	12 234 275	13 103 626

Call Deposits are investments with a maturity period of less than 3 months and earn interest rates varying from 5.10 % to 5,75 % (2011: 5% to 7,50%) per annum.

**6.2 Bank Accounts**

Cash in Bank	2 713 771	6 501 621
<b>Total Bank Accounts</b>	<b>2 713 771</b>	<b>6 501 621</b>

The Municipality has the following bank accounts:

**Primary Bank Account**

<i>Standard Bank - Mokopane Branch, Mokopane - Account Number 031 264 344:</i>		
Cash book balance at beginning of year	6 501 621	(181 378)
Cash book balance at end of year	2 713 771	6 501 621

The Municipality has the following bank accounts:

**Primary Bank Account**

Cash book balance at beginning of year	6 234 165	-2 334 704
Cash book balance at end of year	2 618 355	6 234 165

*ABSA - Kuruman - Account Number 4052183325:*

Bank statement balance at beginning of year	8 423 669	-
Bank statement balance at end of year	918 355	8 423 669

**TMT Account**

Cash book balance at beginning of year	166 901	-
Cash book balance at end of year	-5 184	166 901

**DEVELOPMEND FUND**

Cash book balance at beginning of year	951	-
Cash book balance at end of year	951	951

**ABSA KURUMAN RESERVOIR**

Cash book balance at beginning of year	-	-
Cash book balance at end of year	99 648	99 605

The municipality does not have any overdrawn current account facilities with its banker and therefore does not incur interest on overdrawn current accounts. Interest is earned at different rates per annum on favourable balances.

The ABSA Kuruman Reservoir account was created by the municipality in order to receive promised donations in future for the repair of the water reservoir

**GA-SEGONYANA MUNICIPALITY**  
**NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2014**

	2014 R	2013 R
<b>6.3 Cash and Cash Equivalents</b>		
Cash Floats and Advances	6 520	6 520
Other Cash Equivalents	-	281 733
<b>Total Cash on hand in Cash Floats, Advances and Equivalents</b>	<b>6 520</b>	<b>288 253</b>

The municipality did not pledge any of its Cash and Cash Equivalents as collateral for its financial liabilities.

No restrictions have been imposed on the municipality in terms of the utilisation of its Cash and Cash Equivalents.

**7. OPERATING LEASE RECEIVABLES**

Operating Leases are recognised on the straight-line basis as per the requirement of GRAP 13. In respect of Non-cancellable Operating Leases the following assets have been recognised:

Balance at beginning of year	1 717	306
Operating Lease Revenue recorded	-	42 491
Operating Lease Revenue effected	(1 717)	(41 080)
<b>Total Operating Lease Receivables</b>	<b>0</b>	<b>1 717</b>

**7.1 Amounts receivable under Operating Leases**

At the Reporting Date the following minimum lease payments were receivable under Non-cancellable Operating Leases for Property, Plant and Equipment, which are receivable as follows:

Up to 1 year	-	1 717
2 to 5 years	-	-
More than 5 years	-	-
<b>Total Operating Lease Arrangements</b>	<b>-</b>	<b>1 717</b>

The impact of charging the escalations in Operating Leases on a straight-line basis over the term of the lease has been an increase of R1 717 (2013: decrease of R-1 411) in current year income.

The following restrictions have been imposed by the municipality in terms of the lease agreements:

- (i) The lessee shall not have the right to sublet, cede or assign the whole or any portion of the premises let.
- (ii) The lessor or its duly authorised agent, representative or servant shall have the right at all reasonable times to inspect the premises let.
- (iii) The lessee shall use the premises let for the sole purpose prescribed in the agreement.

**8. CURRENT PORTION OF LONG-TERM RECEIVABLES**

**Receivables from Exchange Transactions**

During the review of the prior year provision for doubtful debt, it was found that the impairment was understated with R868 594. This understated resulted in a correction of R802 108 being made to the 'Receivables from Exchange Transactions' (the remaining R66 486 was made to 'Receivables from Non-exchange Transactions'). During the preparation of the current year annual financial statements, it was found that the unmetered consumption for the 2010/2011 and 2011/2012 financial years were not correctly accounted for. Management performed a detailed analysis of the amounts and the necessary corrections to be made, which resulted in a decrease (credit) of R383 560 in the 'Trade Receivables from Exchange Transactions' balance (decrease of R763 750 in the 'Service Charges'; increase of R47 108 in the 'VAT Receivable' balance; and an increase of

**Receivables from Non-exchange Transactions**

During the review of the prior year provision for doubtful debt, it was found that the impairment was understated with R868 594. This understated resulted in a correction of R66 486 being made to the 'Receivables from Non-exchange Transactions' (the remaining R802 108 was made to 'Receivables from Exchange Transactions'). It was also found that the easy pay transactions were not accounted for at 30 June 2013, which resulted in the 'Receivables from Non-exchange Transactions' being overstated with R41 908 (and 'Cash and Cash Equivalents' being understated with R41 908). It was furthermore discovered that the Eskom Deposits R167 650 have never been accounted for - this was corrected retrospectively and the

**VAT Receivable**

During the preparation of the current year annual financial statements, it was found that the unmetered consumption for the 2010/2011 and 2011/2012 financial years were not correctly accounted for. Management performed a detailed analysis of the amounts and the necessary corrections to be made, which resulted in an increase (debit) of R47 108 in the 'VAT Receivable' balance (decrease of R763 750 in the 'Service Charges'; decrease of R383 560 in the 'Trade Receivables from Exchange Transactions' balance; and an increase of R427 269 in the 'Accumulated Surplus' opening balance).

**Cash and Cash Equivalents**

During the 2013 audit, it was reported that the sale of stands were incorrectly accounted for. In order to correct this missstatement, 'Cash and Cash Equivalents' were credited (to eliminate the transaction) with R577 360 (debiting 'Other Income'). It was also found that the easy pay transactions were not accounted for at 30 June 2013, which resulted in the 'Cash and Cash Equivalents' being understated with R41 908 (and 'Receivables from Non-exchange Transactions' being overstated with R41 908). During the current financial year unallocated deposits, amounting to R355 827, was corrected and resulted in an increase in the 'Cash and Cash Equivalents' balance (decrease in suspense accounts). Cheques (specifically cheques 84198 and 81500) were reversed in the current year, resulting in the adjustment being made retrospectively by debiting 'Cash and Cash Equivalents' with R824 264 (and crediting 'Payables from Exchange Transactions').

**Property, Plant and Equipment**

During the current year the municipality embarked in identifying, verifying and determining the costs of all Property, Plant and Equipment, Investment Property, Intangible Assets, Heritage Assets and Investment Property. This resulted in material adjustment being made to the aforementioned balances, as well as the Depreciation and Amortisation Expense and Accumulated Surplus (opening balance).

**GA-SEGONYANA MUNICIPALITY**  
**NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2014**

2014	2013
R	R

**Intangible Assets**

During the current year the municipality embarked in identifying, verifying and determining the costs of all Property, Plant and Equipment, Investment Property, Intangible Assets, Heritage Assets and Investment Property. This resulted in material adjustment being made to the aforementioned balances, as well as the Depreciation and Amortisation Expense and Accumulated Surplus (opening balance).

**Investment Property**

During the current year the municipality embarked in identifying, verifying and determining the costs of all Property, Plant and Equipment, Investment Property, Intangible Assets, Heritage Assets and Investment Property. This resulted in material adjustment being made to the aforementioned balances, as well as the Depreciation and Amortisation Expense and Accumulated Surplus (opening balance).

**Heritage Assets**

During the current year the municipality embarked in identifying, verifying and determining the costs of all Property, Plant and Equipment, Investment Property, Intangible Assets, Heritage Assets and Investment Property. This resulted in material adjustment being made to the aforementioned balances, as well as the Depreciation and Amortisation Expense and Accumulated Surplus (opening balance).

**Payables from Exchange Transactions**

In the prior year journal JS92 was duplicated, which resulted in the 'Payables from Exchange Transactions' being overstated R49 247. Cheques (specifically cheques 84198 and 81500) were reversed in the current year, resulting in the adjustment being made retrospectively by crediting 'Payables from Exchange Transactions' with R2 342 762 (and debiting 'Cash and Cash Equivalents'). Creditors amounting to R2 192 269 (Repairs and Maintenance = R50 097; Bulk Purchases = R507 401; Other Expenses = R1 228 396; and VAT = R141 879) were not provided for in the previous financial year - this was retrospectively adjusted.

**Provisions**

During the review of the prior year 'Retirement Benefit Liability' for the Post Employment Medical Aid Liability, it was found that management used the incorrect valuation report to account for the balance and movement during the 2013 financial year. This was retrospectively adjusted to ensure that the movement in the 2014 financial year is correctly accounted for. This resulted in adjustments being made to the 'Retirement benefit Liability', 'Provisions' and the 'Employee Related Costs'.

**Retirement Benefit Liabilities**

During the review of the prior year 'Retirement Benefit Liability' for the Post Employment Medical Aid Liability, it was found that management used the incorrect valuation report to account for the balance and movement during the 2013 financial year. This was retrospectively adjusted to ensure that the movement in the 2014 financial year is correctly accounted for. This resulted in adjustments being made to the 'Retirement benefit Liability', 'Provisions' and the 'Employee Related Costs'.

**Accumulated Surplus - Opening Balance**

In the prior year journal JS92 was duplicated, which resulted in the 'Payables from Exchange Transactions' being overstated R49 247. This was corrected by debiting the 'Accumulated Surplus' opening balance (crediting the 'Payables from Exchange Transactions'). During the preparation of the current year annual financial statements, it was found that the unmetered consumption for the 2010/2011 and 2011/2012 financial years were not correctly accounted for. Management performed a detailed analysis of the amounts and the necessary corrections to be made, which resulted in an increase of R427 269 in the 'Accumulated Surplus' opening balance (decrease of R763 750 in the 'Service Charges'; increase of R47 108 in the 'VAT Receivable' balance; and decrease of R383 560 in the 'Trade Receivables from Exchange Transactions' balance). It was furthermore discovered that the Eskom Deposits R167 650 (accounted for as 'Trade Receivables from Non-exchange Transactions') have never been accounted for - this was corrected retrospectively and the 'Accumulated Surplus' opening balance was restated with the said amount.

**Service Charges**

During the preparation of the current year annual financial statements, it was found that the unmetered consumption for the 2010/2011 and 2011/2012 financial years were not correctly accounted for. Management performed a detailed analysis of the amounts and the necessary corrections to be made, which resulted in a decrease (debit) of R763 750 in the Service Charges (decrease of R383 560 in the 'Trade Receivables from Exchange Transactions' balance; increase of R47 108 in the 'VAT Receivable' balance; and an increase of R427 269 in the 'Accumulated Surplus' opening balance).

**Other Revenue**

During the 2013 audit, it was reported that the sale of stands were incorrectly accounted for. In order to correct this misstatement, 'Other Income' was debited (to eliminate the transaction) with R577 360 (crediting 'Cash and Cash Equivalents').

**Employee Related Costs**

During the review of the prior year 'Retirement Benefit Liability' for the Post Employment Medical Aid Liability, it was found that management used the incorrect valuation report to account for the balance and movement during the 2013 financial year. This was retrospectively adjusted to ensure that the movement in the 2014 financial year is correctly accounted for. This resulted in adjustments being made to the 'Retirement benefit Liability', 'Provisions' and the 'Employee Related Costs'.

**Impairment Losses**

During the review of the prior year provision for doubtful debt, it was found that the impairment was understated with R868 594. This understated resulted in a correction of R66 486 being made to the 'Receivables from Non-exchange Transactions' and R802 108 to 'Receivables from Exchange Transactions'.

**Depreciation and Amortisation**

During the current year the municipality embarked in identifying, verifying and determining the costs of all Property, Plant and Equipment, Investment Property, Intangible Assets, Heritage Assets and Investment Property. This resulted in material adjustment being made to the aforementioned balances, as well as the Depreciation and Amortisation Expense and Accumulated Surplus (opening balance).

**Repairs and Maintenance**

Creditors amounting to R2 192 269 (Repairs and Maintenance = R50 097; Bulk Purchases = R507 401; Other Expenses = R1 228 396; and VAT = R141 879) were not provided for in the previous financial year - this was retrospectively adjusted.

**Bulk Purchases**

Creditors amounting to R2 192 269 (Repairs and Maintenance = R50 097; Bulk Purchases = R507 401; Other Expenses = R1 228 396; and VAT = R141 879) were not provided for in the previous financial year - this was retrospectively adjusted.

**General Expenses**

Creditors amounting to R2 192 269 (Repairs and Maintenance = R50 097; Bulk Purchases = R507 401; Other Expenses = R1 228 396; and VAT = R141 879) were not provided for in the previous financial year - this was retrospectively adjusted.

**51.2 Fair Value**

The following methods and assumptions were used to estimate the Fair Value of each class of Financial Instrument for which it is practical to estimate

**Cash**

The carrying amount approximates the Fair Value because of the short maturity of these instruments.

**Long-term Investments**

The Fair Value of some Investments are estimated based on quoted market prices of those or similar investments. Unlisted Equity Investments are

**Loan Receivables/Payables**

Interest-bearing Borrowings and Receivables are generally at interest rates in line with those currently available in the market on a floating-rate basis,

**Trade and Other Receivables/Payables**

The Fair Value of Trade and Other Payables is estimated at the present value of future cash flows.

The management of the municipality is of the opinion that the carrying value of Trade and Other Receivables recorded at amortised cost in the Annual Financial Statements approximate their fair values. The Fair Value of Trade Receivables were determined after considering the standard terms and

**Other Financial Assets and Liabilities**

The Fair Value of Other Financial Assets and Financial Liabilities (excluding Derivative Instruments) is determined in accordance with generally

**Long-term Liabilities**

The Fair Value of Long-term Liabilities was determined after considering the standard terms and conditions of agreements entered into between the

Management considers the carrying amounts of Financial Assets and Financial Liabilities recorded at amortised cost in the Annual Financial

No Financial Instruments of the municipality have been reclassified during the year.

**Assumptions used in determining Fair Value of Financial Assets and Financial Liabilities**

The table below analyses Financial Instruments carried at Fair Value at the end of the reporting period by the level of fair-value hierarchy as required

2014	2013
R	R

- Credit Risk;
- Liquidity Risk; and
- Market Risk.

Risks and exposures are disclosed as follows:

**Market Risk**

Market Risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the municipality's

**Credit Risk**

Credit Risk is the risk of financial loss to the municipality if a customer or counterparty to a Financial Instrument fails to meet its contractual obligations

**Liquidity Risk**

Liquidity Risk is the risk that the municipality will encounter difficulty in meeting the obligations associated with its Financial Liabilities that are settled by Liquidity Risk is managed by ensuring that all assets are reinvested at maturity at competitive interest rates in relation to cash flow requirements.

A maturity analysis for Financial Liabilities (where applicable) that shows the remaining undiscounted contractual maturities is disclosed in Note 56.8 to

***51.6 Market Risk***

The municipality's activities expose it primarily to the financial risks of changes in interest rates (see Note 56.7 below). No formal policy exists to

There has been no change to the municipality's exposure to market risks or the manner in which it manages and measures the risk.

***51.6.1 Foreign Currency Risk Management***

The municipality's activities do not expose it to the financial risks of foreign currency and therefore has no formal policy to hedge volatilities in the

***51.6.2 Interest Rate Risk Management***

*Interest Rate Risk* is defined as the risk that the fair value or future cash flows associated with a financial instrument will fluctuate in amount as a result

Potential concentrations of interest rate risk consist mainly of variable rate deposit investments, long-term receivables, consumer debtors, other

The municipality limits its counterparty exposures from its money market investment operations by only dealing with Absa Bank, First National Bank,

Consumer Debtors comprise of a large number of ratepayers, dispersed across different industries and geographical areas. Consumer debtors are

In the case of debtors whose accounts become in arrears, it is endeavoured to collect such accounts by "levying of penalty charges", "demand for

Long-term Receivables and Other Debtors are individually evaluated annually at Balance Sheet date for impairment or discounting. A report on the

The municipality is not exposed to credit interest rate risk as the municipality has no borrowings.

The municipality's exposures to interest rates on Financial Assets and Financial Liabilities are detailed in the Credit Risk Management section of this

**Interest Rate Sensitivity Analysis**

The sensitivity analysis has been determined based on the exposure to interest rates at the Statement of Financial Position date. The analysis is

**Cash and Cash Equivalents:**

If interest rates had been 100 basis points higher / lower and all other variables were held constant, the municipality's:

- Surplus for the year ended 30 June 2014 would have increased / decreased by R0 (30 June 2013: R0). This is mainly attributable to the

***51.7 Credit Risk Management***

*Credit Risk* refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the municipality. The municipality

Potential concentrations of credit rate risk consist mainly of variable rate deposit investments, long-term receivables, consumer debtors, other debtors,

**Investments/Bank, Cash and Cash Equivalents:**

The municipality limits its counterparty exposures from its money market investment operations (financial assets that are neither past due nor

**Trade and Other Receivables:**

Trade and Other Receivables are amounts owed by consumers and are presented net of impairment losses. The municipality has a credit risk policy in place and the exposure to credit risk is monitored on an ongoing basis. The municipality is compelled in terms of its constitutional mandate to

The municipality limits this risk exposure in the following ways, in addition to its normal credit control and debt management procedures:

- The application of section 118(3) of the Municipal Systems Act (MSA), which permits the municipality to refuse connection of services whilst any
- A new owner is advised, prior to the issue of a revenue clearance certificate, that any debt remaining from the previous owner will be transferred to
- The consolidation of rates and service accounts, enabling the disconnecting services for the non-payment of any of the individual debts, in terms of
- The requirement of a deposit for new service connections, serving as guarantee and are reviewed annually;
- Encouraging residents to install water management devices that control water flow to households, and/or prepaid electricity meters.

There were no material changes in the exposure to credit risk and its objectives, policies and processes for managing and measuring the risk during the year under review. The municipality's maximum exposure to credit risk is represented by the carrying value of each financial asset in the

## GA-SEGONYANA MUNICIPALITY

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2014

#### 51 FINANCIAL INSTRUMENTS (Continued)

##### 51.8 Liquidity Risk Management

Ultimate responsibility for liquidity risk management rests with the Council, which has built an appropriate liquidity risk management framework for the management of the municipality's short, medium and long-term funding and liquidity management requirements. The municipality manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities. Included in Note 52 is a listing of additional undrawn facilities that the municipality has at its disposal to further reduce liquidity risk (cash).

##### Liquidity and Interest Risk Tables

The municipality ensures that it has sufficient cash on demand or access to facilities to meet expected operational expenses through the use of cash flow forecasts.

The following table details the municipality's expected maturity for its non-derivative financial assets. The tables below have been drawn up based on the undiscounted contractual maturities of the financial assets including interest that will be earned on those assets except where the municipality anticipates that the cash flow will occur in a different period.

The municipality has access to financial facilities, the total unused amount which is R0 (2013: R76 263), at the reporting date. The municipality expects to meet its other obligations from operating cash flows and proceeds of maturing financial assets. The municipality expects to maintain current debt to equity ratio. This will be achieved through increased service tariff charges and the increased use of unsecured bank facilities.

##### 51.9 Other Price Risks

The municipality is not exposed to equity price risks arising from equity investments as the municipality does not trade these investments.

**NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2014**

2014	2013
R	R

**52 MULTI-EMPLOYER RETIREMENT BENEFIT INFORMATION**

The municipality makes provision for post-retirement benefits to eligible councillors and employees, who belong to different pension schemes.

All councillors belong to the Pension Fund for Municipal Councillors.

Employees belong to a variety of approved Pension and Provident Funds as described below.

These funds are governed by the Pension Funds Act and include both defined benefit and defined contribution schemes.

All of these afore-mentioned funds are multi-employer plans and are subject to either a tri-annual, bi-annual or annual actuarial valuation, details which are provided below.

Sufficient information is not available to use defined benefit accounting for the pension and retirement funds, due to the following reasons:-

- (i) The assets of each fund are held in one portfolio and are not notionally allocated to each of the participating employers.
- (ii) One set of financial statements are compiled for each fund and financial statements are not drafted for each participating employer.
- (iii) The same rate of contribution applies to all participating employers and no regard is paid to differences in the membership distribution of the participating employers.

It is therefore seen that each fund operates as a single entity and is not divided into sub-funds for each participating employer.

The only obligation of the municipality with respect to the retirement benefit plans is to make the specified contributions. Where councillors / employees leave the plans prior to full vesting of the contributions, the contributions payable by the municipality are reduced by the amount of forfeited contributions.

The total expense recognised in the Statement of Financial Performance of R7 788 666 (2013: R6 494 650) represents contributions payable to these plans by the municipality at rates specified in the rules of the plans. These contributions have been expensed.

The Retirement Funds have been valued by making use of the Discounted Cash Flow method of valuation.

**DEFINED BENEFIT SCHEMES**

**Municipal Employees Pension Fund:**

The scheme is subject to a tri-annual actuarial valuation. The last statutory valuation was performed as at 28 February 2011.

The statutory valuation performed as at 28 February 2011 revealed that the net assets of the fund were R552,8 (28 February 2008: R432,7) million, with a funding level of 107,9% (28 February 2008: 108,2%). The contribution rate paid by the members (7,50%) and Council (15,00%, 18,00% and 22,00%) is not sufficient to fund the benefits accruing from the fund in the future and there is a shortfall in the future employer contribution rate of 8,10% (28 February 2008: 0,70%).

**National Fund for Municipal Workers - Pension Fund:**

**DEFINED CONTRIBUTION SCHEMES**

**Municipal Councillors Pension Fund:**

The scheme is subject to a tri-annual actuarial valuation. The last statutory valuation was performed as at 30 June 2012.

The statutory valuation performed as at 30 June 2012 revealed that the net assets of the fund were R1 183,5 (30 June 2009: R1 123,7) million, with a funding level of 99,5% (30 June 2009: 102,0%). The contribution rate paid by the members (13,75%) and Council (15,00%) is sufficient to fund the benefits accruing from the fund in the future.

The deficit of R6,4 (2009: surplus R22,5) million is regarded as relatively insignificant in the context of the fund. There is a strong possibility that SARS may reverse penalties and interest in the order of R10,3 million which will result in a fully funded position.

As reported by the Actuaries, the Fund was following an appropriate investment strategy during the valuation period.

**Municipal Employees Gratuity Fund:**

The scheme is subject to a tri-annual actuarial valuation. The last statutory valuation was performed as at 30 June 2013.

The valuation performed as at 30 June 2013 revealed that the market value of the fund was R14 565 (30 June 2012: 12 537) million. The contribution rate payable (7,50% by the member and 22,00% by the employer), is sufficient to fund the benefits accruing from the fund in the future. The fund was certified to be in sound financial condition as at 30 June 2013.

**GA-SEGONYANA MUNICIPALITY**  
**NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2014**

2014  
R

2013  
R

**National Fund for Municipal Workers**

The scheme is subject to an annual actuarial valuation. The last statutory valuation was performed as at 30 June 2013.

The scheme's assets amounted to R6 981,5 (2012: R5 646,4) million at 30 June.

The statutory valuation performed as at 30 June 2013 revealed that the fund had a deficit of 65,2 (30 June 2012: deficit R63,6) million, with a funding level of 99,07% (30 June 2012: 98,89%). The contribution rate paid by the members (minimum of 2,00% to 5,00%) and the municipalities (minimum of 2,00% to 5,00%) is sufficient to fund the benefits accruing from the fund in the future.

The monthly deductions for cost were sufficient to cover the expenses incurred over the valuation period. The Trustees, with the support of the Valuator, must continue to monitor the position on an annual basis.

**National Fund for Municipal Workers - Provident Fund:**

None of the above mentioned plans are State Plans.

**53 RELATED PARTY TRANSACTIONS**

**53.1 Interest of Related Parties**

Councillors and/or management of the municipality have relationships with businesses as indicated below:

-----------	-----------

**53.5 Purchases from Related Parties**

The municipality did not buy goods from any companies which can be considered to be Related Parties.

**54 PRIVATE PUBLIC PARTNERSHIPS**

The municipality was not a party to any Private Public Partnerships during the year under review.

**55 EVENTS AFTER THE REPORTING DATE**

No events having financial implications requiring disclosure occurred subsequent to 30 June 2014.

**56 COMPARATIVE FIGURES**

The comparative figures were restated as a result of the effect of Changes in Accounting Policies (Note 42) and Prior Period Errors (Note 43).

**57 GOING CONCERN ASSESSMENT**

Management considered the following matters relating to the Going Concern:

(i) On 29 May 2014 the Council adopted the 2014/15 to 2016/17 Budget. This three-year Medium Term Revenue and Expenditure Framework (MTREF) to support the ongoing delivery of municipal services to residents reflected that the Budget was cash-backed over the three-year period.

(ii) The municipality's Budget is subjected to a very rigorous independent assessment process to assess its cash-backing status before it is ultimately approved by Council.

(iii) Strict daily cash management processes are embedded in the municipality's operations to manage and monitor all actual cash inflows and cash outflows in terms of the cash-flow forecast supporting the Budget. The cash management processes is complemented by monthly and quarterly reporting, highlighting the actual cash position, including the associated risks and remedial actions to be instituted.

(iv) As the municipality has the power to levy fees, tariffs and charges, this will result in an ongoing inflow of revenue to support the ongoing delivery of municipal services. Certain key financial ratios, such as liquidity, cost coverage, debtors' collection rates and creditors' payment terms are closely monitored and the necessary corrective actions instituted.

Taking the aforementioned into account, management has prepared the Annual Financial Statements on the Going Concern Basis.

## Interpretation of Results:

The green colour indicates that the result is within the norm and is acceptable.

The red colour indicates that the result is not acceptable and contractive.

Data should be contained in the blue coloured cell to simulate a cell

Dalla storia del capitolo in cui Giudeo scrive a Parlo.

In situations where the results are not within the acceptable norm, corrective actions/plans should be taken and referenced.
